The purpose of this filing is to adjust the "transitional" rate defined by the recently enacted FCC rules pursuant to the FCC's 2020 8YY Order and how 800 calls are billed. The FCC's rules are effective beginning 7-1-2021. These changes are reflected on pages 35, 36, 37, and 47.

Pages 46, 48, 49, and 50 are being updated to include additional incremental ETS speed service offerings that are occasionally requested by customers as well as the inclusion of interconnected basic ports and interconnected ethernet virtual connections offered at the same pricing as basic ports and ethernet virtual connections. These pages also correct two typographical errors. These changes are effective beginning 7-1-2021.

The proposed changes made in the aforementioned tariff sheets do not constitute a violation of state law or Commission rule.
