Re: Docket No. 21-051-T01  
Beehive Telephone Company, Inc.  
Intrastate Access Tariff PSC Utah No. 2 Revisions

Dear Mr. Wilderburg:

Vantage Point Solutions files, on behalf of Beehive Telephone Company (“Beehive”), the enclosed proposed tariff revisions with an effective date of July 1, 2021. The purpose of this filing is to comply with the Federal Communications Commission (“FCC”) amended rules which implement 8YY (toll free) access charges reform related to End Office Local Switching, Tandem Switched Transport, and Data Base Query Charge.

#### Local Switching

Effective July 1, 2021, The FCC requires all local exchange carriers to bring any intrastate originating 8YY end office access rates that exceed the comparable interstate rates into parity with the comparable interstate rates. Beehive’s current End Office Originating Local Switching Rate is below its comparable interstate rate. Therefore, no rate reduction is proposed for the rate.

#### Tandem Switched Transport

Effective July 1, 2021, the FCC prohibits the applications of originating Tandem Switched Transport rates on toll free minutes with the exception that tandem providers can bill no more than \$0.001 per minute for Joint Tandem Switched Transport. Beehive is a tandem provider and has proposed a Joint Tandem Switched Transport rate of \$0.001. Beehive has also proposed to modify it Tandem Switched Transport rates to exclude toll fee minutes.

#### Data Base Query

Effective July 1, 2021, the FCC established a three-step glide path for reducing the Data Base Query rate starting with a cap of \$0.004248. Beehive proposes to implement this glide path starting at \$0.004248, effective July 1, 2021, and reducing the rate to \$0.002224 on July 1, 2022 and to \$0.0002, effective July 1, 2023.
