CONDITIONS

The above rates apply to the provision of network access lines which, when connected to a suitable instrument provides access to the telecommunications network and are billed on a per line per month basis.

Instruments must be provided by the subscriber, subject to the conditions described in the Connection with Customer Provided Equipment portion of this tariff.

Additional instruments may be attached to network access lines. The Company reserves the right to limit the number of instruments connected to an access line if they cause interference with the normal operation of the line.

PBX Outward Only allows only outgoing calls from the customer's PBX or Key System. It provides access to 911, dial tone, operator services, and long-distance services, but does not allow incoming calls.

Remote Call Forwarding allows a subscriber to have incoming calls forwarded to another number. This service is not programmable by the subscriber, it is a fixed feature. Applicable Service Order Fees and Central Office Line Connection Charge will apply when adding or modifying this feature.
