SECTION 2 – RULES AND REGULATIONS

2.16 Application of Charges

2.16.1 Rounding

Each usage sensitive Switched Service has its own specific initial period and additional period (collectively referred to as billing increments) as specified in Section 3 of this Price List. For all Services, fractions of a billing increment are rounded up to the next higher increment for billing purposes. The usage charges for each completed call during a billing month will be computed. If the charge for the call includes a fraction of a cent of \$.005 or more, the fraction of such charge is rounded up to the next higher whole cent. Otherwise, the charge is rounded down to the next lower whole cent. Rounding for charges for Service(s) is on a call-by-call basis.

2.16.2 BTN Account Changes

(A) Discounts

A change in Service or enrollment in a promotional offering that impacts the Customer's usage discount is effective on the first day of the next billing cycle after the change order is processed.

2.16.3 Monthly Recurring, Optional Feature or One-Time Charge

(A) If Service is provided for less than a billing cycle, all associated intrastate monthly recurring charges will be prorated for the time Service was provided to the Customer.

(B) For Customers subscribing to intrastate Service as an add-on to the Company's interstate service, the applicable interstate monthly recurring, optional feature or one-time charges are specified in the Company's Business and Residential Product Reference and Pricing Guidebook which may be found at <https://www.att.com/servicepublications> and are paid in lieu of intrastate monthly recurring, optional feature or one time charges. (T)

2.17 Taxes, Surcharges, and Fees

2.17.1 General

In addition to the charges specifically pertaining to Services, certain federal, state, and local surcharges, taxes, and fees apply to Services. The Company may impose a surcharge on its Customers to recover amounts it is required by governmental or quasi-governmental authorities to collect from or pay to others in support of statutory or regulatory programs. For Switched Services, these taxes, surcharges, and fees are calculated based upon the point of origination of the call, the point of termination of the call, the length of each call, and the taxing jurisdiction's rules and regulations. All federal, state, and local taxes, surcharges, and fees (i.e., sales tax, gross receipts tax, municipal utilities tax, etc.) are listed on the Customer's invoices, and unless otherwise specified herein, are not included in the rates listed in this Price List.

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.6 AT&T Long Distance Toll FreeSM Services (continued)

3.6.2 Availability

(A) Area of Service

Area of Service allows TFS Customer to block or allow calls to a given TFS Number based on the originating area of the caller. Area of Service blocking is dependent on valid ANI being delivered in the network. Calls placed from outside the Customer's Area of Service will receive an announcement informing the caller that calls cannot be completed from the caller's location. The call will then be terminated. The Customer's minimum area of service must include at least one interstate area.

(B) Originating and Terminating Access

Toll Free calls may originate Switched Access Lines to the Customer's location.

(C) Termination of TFS

TFS may terminate in the State where Switched Access are available.

3.6.3 Optional Features

Optional features are available. A description and the associated rates may be found in the Company's Business and Residential Product Reference and Pricing Guidebook which may be found at <https://www.att.com/servicepublications>.
