Re: Docket No. 22-576-T01, <u>TARIFF</u> Skyline Telecom's Tariff Revisions pertaining to compliance with the Federal Communications Commission's (FCC) rules governing interstate carrier compensation and 8YY Access Reform.

Recommendation (Approve Tariff Sheets)

The Division of Public Utilities (DPU or Division) has reviewed the tariff filing and recommends the Public Service Commission (PSC or Commission) approve Skyline Telecom's (Skyline or Company) request to revise tariff rates to comply with FCC's interstate carrier compensation rules and to conform with the FCC's 8YY Access Reform order. The Division therefore recommends the tariff change become effective on July 1, 2022.

Issue

On May 27, 2022, Skyline submitted to the Commission, Advice Letter 22-576-T01 including revised tariff sheets, with the purpose to revise the tariff rates to conform with a switched access rate increase announced April 6, 2022, by the National Exchange Carrier Association (NECA),¹ and also to comply with the FCC's 8YY Access Charge Reform, Report and Order FCC 20-143, WC Docket No. 18-156, adopted October 7, 2020.² The Commission issued an Action Request on May 27, 2022, for the Division to investigate the

² FCC Order 20-143, WC Docket No. 18-156 adopted October 7, 2020.

proposed changes and report its findings and recommendation to the Commission on June 10, 2022. This memorandum represents the Division's response to the Commission's Action Request.

Background

In April 2022, NECA announced a rate increase of 1.2714 percent to interstate switched access rates to be effective on July 1, 2022. Issuing carriers must match the increase for terminating access by the same date.

In addition, the FCC adopted an order in October 2020, to modernize rules for toll free (8YY) calling. The order steps down 8YY originating access charges to a bill-and-keep system over a transition period beginning July 1, 2021 and ending July 1, 2023. Originating 8YY transport and tandem switching fees were combined to a single transport service rate capped at \$0.001 per minute effective July 1, 2021. Charges for 8YY database queries will also be transitioned to \$0.0002 over the three-year transition period. Additionally, the order combines separate 8YY transport and tandem switching charges into a single access charge.³

Discussion

The Division reviewed the redlined version of the tariff sheets submitted with the Company's filing. The proposed rates for terminating access have been adjusted according to the announced NECA rate increase. Also, the toll free access and query rates have been adjusted in accordance with the stepdown reduction plan and appear to comply with the FCC's 8YY Reform Order. No other rates were affected by the order and no other rate changes were proposed.

³ Ibid p.2(4)

Conclusion

The Division has reviewed Skyline's filing and has no objections to the proposed revisions. Therefore, the Division recommends the Commission approve this filing as submitted, with an effective date of July 1, 2022, as requested.
