ADVICE NO. UT-24-ATT-0002 (Docket 24-087-P02)

Utah Public Service Commission
Heber M. Wells Building, 4th Floor
160 East 300 South
Salt Lake City, UT 84111

ATTN: Melissa Paschal
Email: psc@utah.gov

Dear Ms. Paschal:

Enclosed is a replacement to the AT&T Corp. ("AT&T") Custom Network Services Tariff to change the Corporate entity name from AT&T Corp. to AT&T Enterprises, LLC. This AT&T Enterprises, LLC tariff replaces the AT&T Corp. Tariff in its entirety.

This Internal Restructuring will be seamless to customers. The only change customers will see is the service provider name on their AT&T bill. Customers' services, prices, terms and conditions for those services will not be affected.

AT&T requests a filing date of June 4, 2024 and an effective date of June 9, 2024. Please contact me if you have any questions or concerns at 312-887-2120 or via email at tf2748@att.com.

Thank you for your assistance in this matter.
Respectfully,

A handwritten signature in cursive script that reads "Tricia Conway".

Tricia Conway

Release: 0

1. APPLICATION OF PRICE LIST

1.1 GENERAL

This PRICE LIST contains the regulations and rates applicable to CUSTOM NETWORK SERVICES between two stations within Utah.

1.2 JURISDICTION

Jurisdiction refers to the classification of a CUSTOM NETWORK SERVICE call as intrastate. Jurisdiction is a matter of law not of Company discretion or policy or customer preference. The law describing what constitutes interstate jurisdiction is the Communications Act of 1934, as amended. Some portions of this service are only subject to the jurisdiction of the Federal Communications Commission. This PRICE LIST covers the portion of this service that is subject to the State Regulatory Commission's jurisdiction in Utah.

1.3 STATE CERTIFICATIONS

This PRICE LIST applies to the entity for which the Company is certified to do intrastate business as: AT&T Enterprises, LLC.

1.4 SYMBOLS

Revisions to this PRICE LIST are coded through the use of symbols. These symbols appear in the right margin of the page. The symbols and their meanings are:

- (C) - To signify changed listing, rule, or condition which may affect rates or charges;
- (D) - To signify discontinued material, including a listing, rate, rule or condition;
- (I) - To signify increase;
- (L) - To signify material relocated from or to another part of the PRICE LIST with no change in text, rate, rule, or condition;
- (N) - To signify new material including a listing, rate, rule or condition;
- (R) - To signify reduction; and
- (T) - To signify change in wording of text but no change in rate, rule, or condition

2. GENERAL REGULATIONS

2.1 UNDERTAKING OF THE COMPANY

2.1.1 General

Custom Network Service is furnished for the transmission of voice communications but may also be used for data, facsimile, signaling, metering, or other similar communications, subject to the transmission capabilities of the service.

Custom Network Service is available twenty-four hours a day, seven days per week.

The Company does not transmit messages. However, Custom Network Service may be used for that purpose.

Effective July 31, 2001 all references herein to AT&T FCC Tariffs, insofar as the service offering set forth in the AT&T FCC Tariffs have been or become de-tariffed, shall be construed to be references to the AT&T Business Services Guides located at <http://serviceguidenew.att.com/>.

2.1.2 Transmission Medium

The Company selects and/or arranges for the channels and/or service components used to provide Custom Network Service. Any suitable technology or combination of technologies may be used. The Company may modify or change the channels and/or service components used to furnish Custom Network Service at any time subject to the regulations in 2.7.3 of this PRICE LIST.

2.1.3 Provision of Customer Equipment

Customer equipment may be used with Custom Network Service. The Company does not provide customer equipment.

2.1.4 Through Transmission of Signals

The Company is responsible for the provision of Custom Network Service from station to station. It is not responsible for the quality of transmission or signaling on the customer's side of the interface at a customer's premises. For AT&T MEGACOM/TOLL-FREE MEGACOM Service, the Company is responsible for the quality of transmission and/or signaling from the AT&T MEGACOM/TOLL-FREE MEGACOM Service Central Office to the called/calling station.

2. GENERAL REGULATIONS

2.1 UNDERTAKING OF THE COMPANY (continued)

2.1.5 Availability of Custom Network Services

A. Availability

1. Subject to compliance with B. following, where a shortage of service components exists at any time either for temporary or protracted periods, the establishment of two-point Long Distance Message Telecommunications Service, provided under PRICE LIST, shall take precedence over all other services provided by the Company.
2. Service is furnished subject to the availability of the service components required. The Company will determine which of those components shall be used and make modifications to those components at its option. "Service components" shall include, but not be limited to, the existence of access and/or billing arrangements on an originating and/or terminating basis. In the absence of access arrangements between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station.
3. Service will be provided where facilities and billing capability are available.

B. Restoral of Service

If service is interrupted due to nonpayment of charges due the Company or authorized agent on the Company's behalf, service will be reestablished only upon payment of all charges due the Company or authorized agent which may include the following Restoration Service Charge.

	<u>Restoration Service Charge</u>
- Each line restored	\$ 32.00

C. Service Interruption

Commission rules apply.

2. GENERAL REGULATIONS

2.2 USE

2.2.1 General

Custom Network Service may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications network. Custom Network Service is furnished for use by the customer but may be used by others when so authorized by the customer.

2.2.2 Abuse

The abuse of Custom Network Service is prohibited. The following activities constitute abuse:

- A. Using Custom Network Service to make calls which might reasonably be expected to frighten, abuse, torment, or harass another, or
- B. Using Custom Network Service in such a way that it interferes unreasonably with the use of other Company services.

2.2.3 Fraudulent Use

The fraudulent use of, or the intended or attempted fraudulent use of, Custom Network Service is prohibited. The following activities constitute fraudulent use:

- A. Using Custom Network Service to transmit a message, locate a person, or otherwise give or obtain information, without payment for the service.
- B. Using or attempting to use Custom Network Service with the intent to avoid the payment, either in whole or in part, of the charges for the service by:
 - 1. Rearranging, tampering with, or making connections not authorized by this PRICE LIST to any service components used to furnish Custom Network Service, or
 - 2. Using fraudulent means or devices, tricks, schemes, false or invalid numbers, false credit devices, or electronic devices.

2. GENERAL REGULATIONS

2.3 RESPONSIBILITIES OF THE COMPANY

2.3.1 Liability

- A. The Company's liability, if any, for its willful misconduct is not limited by this PRICE LIST. With respect to any other claim or suit, by a customer or by any others, for damages associated with the installation, provision, termination, maintenance, repair or restoration of Custom Network Service, and subject to the provisions of B. through G. following, the Company's liability, if any, shall not exceed an amount equal to the initial period charge provided for under this PRICE LIST for the Custom Network Service call for the period during which the call was affected.
- B. The Company is not liable for damages associated with service, channels, or equipment which it does not furnish.
- C. The Company is not liable for damages to a premises resulting from the furnishing of Custom Network Service, including the installation and removal of equipment and associated wiring, unless the damage is caused by the Company's negligence.
- D. The Company shall be indemnified, defended, and held harmless by the customer and user against all claims, losses, or damages arising from the use of Custom Network Service furnished pursuant to this PRICE LIST, involving:
 - 1. Claims for libel, slander, invasion of privacy, or infringement of copyright arising from any communication;
 - 2. Claims for patent infringement arising from combining or using Custom Network Service furnished by the Company in connection with facilities or equipment furnished by others; or
 - 3. All other claims arising out of any act or omission of others relating to Custom Network Service provided pursuant to this PRICE LIST.

2. GENERAL REGULATIONS

2.3 RESPONSIBILITIES OF THE COMPANY (continued)

2.3.1 Liability (continued)

- E. The Company does not guarantee or make any warranty with respect to Custom Network Service when used in an explosive atmosphere. The Company shall be indemnified, defended, and held harmless by the customer and user against all claims, losses or damages by any person relating to Custom Network Service provided pursuant to this PRICE LIST when used in an explosive atmosphere.
- F. No license under patents (other than the limited license to use) is granted by the Company or shall be implied or arise by estoppel, with respect to any service offered under this PRICE LIST. The Company will defend the customer and user against claims of patent infringement arising solely from the use by the customer or user of Custom Network Service offered under this PRICE LIST and will indemnify such customer or user for any damages awarded based solely on such claims.
- G. The Company's failure to provide or maintain service under this PRICE LIST shall be excused by labor difficulties, governmental orders, civil commotions, acts of God, and other circumstances beyond the Company's reasonable control.

2. GENERAL REGULATIONS

2.4 RESPONSIBILITIES OF THE CUSTOMER

2.4.1 General

The customer's general responsibilities are described in this section. When customer equipment or a customer-provided Communications system is connected to Custom Network Service, the customer assumes additional responsibilities that are described in the Connections section of this PRICE LIST (see Section 2.7 of this PRICE LIST).

A. Payment of Bills and Compliance with Regulations

The customer is responsible for placing any necessary orders and complying with PRICE LIST regulations for Custom Network Service and for assuring that its Users comply with PRICE LIST regulations. The customer is also responsible for the payment of bills for Custom Network Service. This includes payment for Custom Network Service calls or services originated or received at the customer's number(s).

B. Establishing Identity

1. The calling party is responsible for establishing its identity as often as necessary during the course of a call.
2. The calling party assumes full responsibility for identifying the station, party, or person with whom connection is made at the called number or numbers.

Release: 0

2. GENERAL REGULATIONS

2.5 PAYMENTS AND CHARGES

2.5.1 General

The applicable rates and charges are contained in the state specific Price Lists of this PRICE LIST, and 2.5.5 following.

2.5.2 Application of Charges

The rates and charges that are in effect in this PRICE LIST when Custom Network Service is furnished are the rates and charges used to determine the customer's bill.

2.5.3 Payment of Charges

Payment for Custom Network Service is due upon presentation of the bill. Custom Network Service may be denied for nonpayment of a bill (see Violation of Regulations, Section 2.9).

2.5.4 Charge Increases

AT&T reserves the right to increase charges for Services provided to the customer, regardless of any term commitment, as a result of (i) expenses incurred by AT&T reasonably relating to regulatory assessments stemming from an order, rule or regulation of any regulatory authority or court having competent jurisdiction; (ii) other governmental charges or fees; (iii) charges or payment obligations imposed on AT&T related to termination of domestic or international calls to mobile numbers; or (iv) reductions in amounts other carriers are required to pay to AT&T or increases in the amount AT&T is required to pay to other carriers.

ISSUED: June 4, 2024
EFFECTIVE: June 9, 2024

Section 2
Page 8
Release: 0

2. GENERAL REGULATIONS

2.5 PAYMENTS AND CHARGES (continued)

2.5.5 Deposits

The Company may require a deposit, or an increase in the amount of deposit, of a Customer who cannot establish a credit standing satisfactory to the Company. If the actual bills of the Customer subsequently rendered prove that the deposit is either insufficient or excessive, the deposit may be changed in accordance with the facts.

Any such deposit may be held during the continuance of the service as security for the payment of any and all amounts accruing for the service.

Interest rate shall be the rate established, and from time to time revised, by the appropriate governmental authority. In the event no such rate is set, then simple interest at the rate of 1.5% per annum shall be credited or paid to the Customer while the deposit is held by AT&T.

A deposit, plus accrued interest, is returned to the Customer, less any amounts due the Company, when the Customer has established a prompt payment record with the Company for twelve (12) consecutive months or service is discontinued, whichever occurs first. Even though a deposit is made, the Customer must still pay bills, including any advance payments, when requested. A Customer's payment of a deposit does not waive or modify the Company's practice of disconnecting service for failure to pay any bills.

2.5.6 Discounts

Discounts set forth in AT&T Interstate service guides may apply to interstate and intrastate usage revenue for the Custom Network Services. These discounts are subject to the terms and conditions as outlined in the AT&T Business Services Guide.

For those customers who subscribe to the Multi Location Calling Plan (MLCP) found in the AT&T Business Services Guide, additional discounts will apply to all intrastate usage.

Release: 0

2. GENERAL REGULATIONS

2.5 PAYMENTS AND CHARGES (continued)

2.5.7 Late Payment Charge

Subject to billing and systems availability, when a bill or estimated bill for switched services charges is presented to the Customer, any amounts for which payment has not been received within 30 calendar days of the invoice date will be considered delinquent. The Customer shall be assessed a Late Payment Charge on any delinquent account balance, when that balance exceeds \$25.00. The period subject to the Late Payment Charge shall commence on the 31st calendar day after the invoice date, and continue from month to month until the delinquent balance is resolved. The Late Payment Charge shall be assessed monthly, based on the delinquent balance maintained on the account at that time. The Late Payment Charge shall be an amount equal to the outstanding delinquent balance multiplied by the applicable interest rate. The interest rate shall be 18% annually, simple interest (1.5% per month, simple interest) unless an applicable law or regulation specifies a lower rate to be charged, and that lower rate shall then apply. The Customer shall not be charged a Late Payment Charge on a delinquent balance, however, if an applicable law or regulation prohibits the imposition of such charges.

In the event a Customer disputes, in good faith, the validity of any switched services charges appearing on its invoice, as specified in this PRICE LIST, the amount of these disputed charges will be excluded from the total delinquent balance while the dispute is pending. If the Company sustains the charges after investigating the dispute, the applicable Late Payment Charges shall be deemed correct and binding on the Customer. If, alternately, the Company credits the charges after investigating the dispute, the Late Payment Charges will not apply.

When a local exchange company provides the billing function on behalf of the Company, the local exchange company's local exchange service late payment charge applies. Late payment charges do not apply until after the due date of the bill on which the usage charges first appear.

2. GENERAL REGULATIONS

2.5 PAYMENTS AND CHARGES (continued)

2.5.8 Payphone Use Charge

In addition to all other charges for Custom Network Services under this PRICE LIST, a non-discountable Payphone Use Charge as specified in the state specific Price List shall apply to each coinless call which AT&T can identify as placed from a domestic payphone by or to the Customer or its permitted users. This charge does not apply to calls completed using AT&T 800 Plan P Service, AT&T EasyReach Service, or calls that are subject to the payphone charge specified in the General Services PRICE LIST. This charge is for the use of the payphone instrument to access AT&T services.

2.5.9 Instate Connection Fee

An Instate Connection Fee of \$2.25 will be assessed to customers who subscribe to the following services; AT&T Commercial Long Distance, AT&T All In One, AT&T CustomNet, AT&T Small Business Option, AT&T PRO WATS/Plan Q and AT&T Clear Advantage. This fee will be charged to all customers who incur at least \$0.01 of long distance usage or long distance charges on their monthly bill. Billed charges can be in the form of billed usage or a billed monthly fee. This fee does not apply to customers that subscribe to only AT&T Local Services.

2. GENERAL REGULATIONS

2.7 CONNECTIONS

2.7.1 General

When customer equipment is connected to Custom Network Service, it must comply with Part 68 of the FCC's Rules and Regulations, 47 C.F.R. Part 68 (commonly known as the FCC's Registration Program). When any equipment or system which is not subject to Part 68 of the FCC's Rules and Regulations is connected, the Minimum Protection Criteria specified in this PRICE LIST must be met.

Custom Network Services may be connected to private networks or communications systems under the terms and conditions specified in that section.

The Company is responsible for the quality of transmission from station to station.

2.7.2 Responsibilities of the Customer

When customer equipment or a customer-provided communications system is connected to Custom Network Service, the customer assumes responsibility for the connection as follows:

A. Compatibility with Custom Network Service

The customer is responsible for the compatibility of its equipment or system with Custom Network Service. This responsibility applies at the initial installation and on a continuing basis as long as the connection is made.

B. Interference and Hazard

The operating characteristics of the customer equipment or customer provided communications system connected to Custom Network Service must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of Custom Network Service.

EFFECTIVE: June 9, 2024

Section 2
Page 13
Release: 0

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.2 Responsibilities of the Customer (continued)

C. Changes to Custom Network Service

The Company is not obligated to alter or modify Custom Network Service because of additions or changes to customer equipment or a customer-provided communications system.

D. Testing and Maintenance

If a trouble condition occurs on an assembly, the customer must determine whether the fault is in (1) the connected customer equipment or customer-provided communications system, or (2) Custom Network Service. The Company will test and maintain only Custom Network Service.

The testing of Custom Network Service will usually be made from a central office. The Company will not dispatch a repair person to a customer's or user's premises if a trouble condition (or suspected trouble condition) exists on the local exchange service. The customer is responsible for requesting such dispatch from the provider of the local exchange service. The customer is also responsible for the payment of such provider's charges, if any, for the dispatch.

2.7.3 Responsibilities of the Company

A. General

The Company will furnish and maintain its service components in a manner suitable for Custom Network Service. The Company will make available information as required by Part 68 of the FCC's Rules and Regulations (e.g., the number of ringers that may be connected to a particular line). In addition, the Company will be responsible for the compatibility of its equipment or services with Custom Network Service when such equipment or services are connected to Custom Network Service at a central office.

Release: 0

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.3 Responsibilities of the Company (continued)

B. Changes in Components, Operations, or Procedures

The Company is not responsible to any party if a change in its Custom Network Service components, operations, or procedures, which is consistent with the Registration Program, (1) affects any facilities, customer equipment or customer-provided communications systems provided by others in any way, or (2) requires their modification in order to be used with Custom Network Service. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the Custom Network Service or render any customer equipment or customer-provided communications system incompatible with Custom Network Service, the Company will provide adequate notice, in writing, to allow the customer an opportunity to maintain uninterrupted service.

2.7.4 Connection to a Customer-Provided Communications System or to Service(S) Provided by Others

Any system or service connected to a Custom Network Service offering must be operated and maintained so it will work satisfactorily with Custom Network Service. Connections to Custom Network Service will be made in accordance with the following:

A. Answer Supervision

Answer supervision must be provided when a Custom Network Service offering is connected to switching equipment or a customer-provided communications system which is not subject to Part 68 of the FCC Rules and Regulations, 47 C.F.R. Part 68. In such cases, the equipment or system must provide answer supervision so that the measure of chargeable time begins upon the delivery of the Custom Network Service call to the switching equipment or to the equipment connected to the communications system and ends upon termination of the call by the calling party.

B. Minimum Protection Criteria

The connection at the station used for Custom Network Service must be made so that it continually complies with the specified Minimum Protection Criteria, Section 2.7.5 of this PRICE LIST.

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.4 Connection to a Customer-Provided Communications System or to Service(S) Provided by Others (continued)

C. Customer-Provided Communications System Failures

When a customer-provided communications system fails and the connection to Custom Network Service is not through switching equipment, the customer-provided communications system must be arranged to promptly return the Custom Network Service to an idle (on-hook) state. In addition, the customer must notify the Company when the customer-provided communications system fails.

D. Use of Satellite Facilities

If a customer-provided communications system uses satellite facilities (directly or indirectly), and is connected to Custom Network Service, there may be two or more satellite links involved in the combined connection. In such cases, the Company will not be responsible for any deterioration in transmission. It will continue to furnish Custom Network Service using the service components that it considers to be appropriate.

2.7.5 Minimum Protection Criteria

A. General

Minimum Protection Criteria have been specified so that Company personnel, equipment, and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria apply to the direct electrical, acoustic, or inductive connections of customer equipment, test equipment and customer-provided communications systems to the Custom Network Service.

B. All Connections

Customer equipment, test equipment and customer-provided communications systems which are connected to Custom Network Service on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

1. To protect other Company services, it is necessary that the signal which is applied at the station meets the following limits:

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.5 Minimum Protection Criteria (continued)

B. All Connections

1. To protect other Company (continued)

a. Metallic Voltage

(1) 4kHz to 270 KHz

Center Frequency (f) of 8 KHz Band	Max. Voltage in All 8 KHz Bands	Terminating Impedance
8 KHz to 12 KHz	- (6.4 + 12.6 log f) dBV*	300 ohms
12 KHz to 90 KHz	(23 - 40 log f) dBV	135 ohms
90 KHz to 266 KHz	- 55 dBV	135 ohms

*dBV = 20 log₁₀ voltage in volts

(2) The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 KHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms.

b. Longitudinal Voltage

(1) 4 KHz to 270 KHz

Center Frequency (f) of 8 KHz Band	Max. Voltage in All 8 KHz Bands	Longitudinal Terminating Impedance
8 KHz to 12 KHz	- (18.4 + 20 log f) dBV*	500 ohms
12 KHz to 42 KHz	(3 - 40 log f) dBV	90 ohms
42 KHz to 266 KHz	- 62 dBV	90 ohms

*dBV = 20 log₁₀ voltage in volts

(2) The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 KHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

CUSTOM NETWORK SERVICES

ISSUED: June 4, 2024
EFFECTIVE: June 9, 2024

Section 2
Page 17
Release: 0

2. GENERAL REGULATIONS

2.7 Connections (continued)

2.7.5 Minimum Protection Criteria (continued)

B. All Connections (continued)

2. To prevent the interruption or disconnection of a Custom Network Service call, it is necessary that the signal power applied at the station be limited. Specifically, the signal at the station shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the station in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

C. Direct Electrical Connections

In addition to the regulations in B. preceding, customer equipment, test equipment and customer-provided communications systems which are connected to Custom Network Service on a direct electrical basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal presented at the AT&T Central Office not exceed 12dB below one milliwatt when measured over any three second interval. To insure that this limit is not exceeded, the power of the signal which may be applied by the customer equipment, test equipment or customer-provided communications system to the station will be specified for each customer location. In no case shall the power exceed one milliwatt.

D. Acoustic or Inductive Connections

In addition to the regulations in B. preceding, customer equipment and customer-provided communications systems which are connected to Custom Network Service on an acoustic or inductive basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the station located on the customer's or user's premises be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three second interval. However, to permit each customer, independent of distance from the serving office, to supply signal power which at the serving office, approximates 12dB below one milliwatt when averaged over any three-second interval, the Company, at the customer's request, will specify, for each customer location, the signal power at the station, which shall in no case exceed one milliwatt.

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.6 Recording of Two-Way Telephone Conversations

Custom Network Service is not represented as adapted to the recording of two-way telephone conversations. However, voice recording equipment which is directly, acoustically or inductively connected with Custom Network Service may be used for the recording of such conversations subject to the following regulations which have been adopted by the FCC:

A. Recording Requirements

The voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the customer. In addition, one of the following conditions must apply:

All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or

A distinctive recorder tone, repeated at intervals of approximately fifteen seconds, is required to alert all parties when the recording equipment is in use. The distinctive recording tone can be provided as part of (1) the recording equipment, or (2) registered or grandfathered protective circuitry.

A broadcast licensee shall be exempt from the above recording requirements provided at least one of the following requirements is met:

The licensee informs each party to the call of its intent to broadcast the conversation; or

Each party to the call is aware of the licensee's intent to broadcast the call; or

Such awareness of the licensee's intent to broadcast the call may be reasonably imputed to the party.

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.6 Recording of Two-Way Telephone Conversations (continued)

B. Exceptions

The FCC has established the following exceptions to the foregoing requirements:

1. Recordings made of incoming calls to telephone numbers publicized for emergencies involving health or safety of life and property (e.g., emergency situations involving fire, health care, police, public utilities and emergency road service) and outgoing calls made in immediate response to such calls. Included in this exception are:
 - a. Recordings made at the United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to Custom Network Service.
 - b. Recordings made by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center.
2. Recordings of calls made for patently unlawful purposes, such as bomb threats, kidnap ransom requests and obscene telephone calls. Outgoing calls made in immediate response to such calls are also excepted. Included in this exception are:
 - a. Recordings made by the United States Secret Service of the Department of the Treasury for recording of two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds.
3. Recordings of calls made by Federal, State or local law enforcement authorities, or federal intelligence authorities, acting under color of law.

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.7 Connections to Other Services Provided by the Company

A Custom Network Service offering may be connected at a customer's premises to other services provided by this Company, if they are electrically compatible. Connections at an AT&T Central Office may be made to Private Line Service furnished under this Company's Interstate Private Line Service Guides, as specified in the appropriate sections of those service guides. All connections are subject to the regulations in this PRICE LIST and the regulations in the PRICE LIST under which the other service is furnished.

2. GENERAL REGULATIONS

2.8 RATE DETERMINATION

The rate for a Custom Network Service call is determined by factors such as:

- * The distance between the rate centers of the originating (calling) station and the terminating (called) station; and under certain conditions the distance between the V&H coordinates of an AT&T Central Office and the rate center of the called station
- * The time of day and the day of week
- * The duration of the call

The specific factors which apply to a given Custom Network Service call and their application are listed in the rate section applicable to that type of call. The regulations pertaining to those factors are as follows:

2.8.1 Time of Day and Day of Week

The rate charged for a Custom Network Service call is determined in part by the day of the week and the time of day at the originating (calling) station or at the AT&T Central Office associated with the originating (calling) station using special access. The rate charged for TOLL-FREE MEGACOM is determined in part by the time of day and day of the week the AT&T Central Office associated with the terminating (called) station. Different rates may be applicable to a call at different times of the day and on certain days of the week as specified in the appropriate rate section for that call.

2.8.2 Determining the Chargeable Time of a Call

The chargeable time for a Custom Network Service call is determined by the duration of the call. Chargeable time includes the initial period plus the additional time involved, if any, and is determined as follows:

- A. On all calls, chargeable time begins when completed connection is established between the calling station and the called station.
- B. Chargeable time ends when the calling station "hangs up". If the called station "hangs up" but the calling station does not, chargeable time ends when the connection is released either by automatic timing equipment in the telecommunications network or by the Company operator.

AT&T ENTERPRISES, LLC
UTAH PRICE LIST
CUSTOM NETWORK SERVICES

ISSUED: June 4, 2024
EFFECTIVE: June 9, 2024

Section 2
Page 22
Release: 0

2. GENERAL REGULATIONS

2.8 RATE DETERMINATION (continued)

2.8.2 Determining the Chargeable Time of a Call (continued)

- C. When Custom Network Service is directly connected to a customer-provided communications system at a customer's or user's premises, chargeable time begins when a Custom Network Service call terminates in, or passes through, the first customer equipment on that customer-provided communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of interface with the Custom Network Service so that chargeable time may begin.

2.8.3 Determining the Applicable Rate in Effect

- A. Except for Custom Network Service calls that use a special access line, when the call is established in one rate period and ends in another rate period, the rate in effect at the calling station, or in the case of TOLL-FREE MEGACOM service the Central Office associated with the called station, respectively for each rate period applies to the portion of the call occurring within that rate period. When a calling station on a Custom Network Service uses a special access line, or in the case of AT&T MEGACOM Service, the rate in effect at the AT&T Central Office for each rate period applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.
- B. Chargeable time for a rate period (e.g., 8 AM - 5 PM) begins with the first stated hour (e.g., 8 AM) and continues to, but does not include, the second stated hour (e.g., 5 PM).

2.8.4 Use of Custom Network Services for Resale or Shared Use

When Custom Network Services are resold or shared, the customer may advise its user that a portion of the customer's service is provided by this Company. However, the customer shall not represent that this Company jointly participates in the provision of the customer's services.

2. GENERAL REGULATIONS

2.9 VIOLATION OF REGULATIONS

2.9.1 General

The Company may take immediate action to protect its services or interests when certain regulations contained in this PRICE LIST are violated. The specific regulations involved and the action(s) which will be taken by this Company are as specified in 2.9.2 and 2.9.3 following.

2.9.2 Interference, Impairment or Improper Use

The Company may temporarily restrict service immediately when the Customer violation:

Circumvents the Company's ability to charge for its services as specified in Section 2.2.3.B (Fraudulent Use) preceding, or

Results in an immediate harm to the Custom Network Service network or other Company services as specified in Section 2.7.5 (Minimum Protection Criteria).

In such cases, the Company will make a reasonable effort to give the customer prior notice before restricting service.

If a customer fails to comply with Section 2.2 (Use), 2.7.4.A (Answer Supervision), 2.7.4.C (Customer-provided Communications System Failures), and 2.7.5 (Minimum Protection Criteria) preceding, the Company may, on ten days written notice by certified U.S. Mail to the customer, deny requests for additional service and/or restrict service to the non-complying customer. If the Company does not deny or restrict the service involved on the date of the ten days notice, and the customer non-compliance continues, nothing contained herein shall preclude the Company's right to deny or restrict the service without further notice.

When a violation results in a denial for additional service and/or restriction of service, the denial and/or restriction will be removed when the customer is in compliance with the regulation and so advises the Company.

2. GENERAL REGULATIONS

2.10 DEFINITION OF TERMS

Access Line

A transmission path that connects a customer premises to an AT&T Central Office.

Access Line Grouping

An access line or group of access lines with the same assigned Software Defined Network identifying number. A group of access lines may be either local exchange service access or special access lines, but must be all of one type.

An access line or group of access lines with the same identifying number. A group of access lines may be either standard or special access lines, but must be all of one type.

Assembly

A configuration consisting of customer equipment and/or a customer-provided communications system or systems, which is connected to Custom Network Service.

AT&T Central Office

The physical point of access for a service to the AT&T interoffice network. Criteria for establishing AT&T Central Offices and a list of AT&T Central Offices with services provided are in this Company's Tariff F.C.C. No. 10.

Building

A structure consisting of an enclosed area surrounded by outside walls and under one continuous roof.

Call

A completed connection established between a calling station and one or more called stations.

Called Station

The station (e.g., telephone number) called, or the terminating point of a call.

2.10 DEFINITION OF TERMS (continued)

Calling Station

The station from which a call is originated.

Company

AT&T Enterprises, LLC

Customer

The person or legal entity which orders service (either direct or through an agent).

Customer-Provided Communications System

Dedicated private line channels and equipment (e.g., microwave or cable system) furnished by the customer for communications between premises.

2. GENERAL REGULATIONS

2.10 DEFINITION OF TERMS (continued)

Grandfathered

A term which describes customer equipment that was directly connected as specified below and that is grandfathered under Part 68 of the Federal Communications Commission's Rules and Regulations because:

The terminal equipment was directly connected to the telecommunications network or local exchange service prior to July 1, 1979.

The multiline terminating system was directly connected to the telecommunications network or local exchange service prior to January 1, 1980.

The protective circuitry was directly connected to the telecommunications network or local exchange service prior to the dates set forth in A. and B. preceding.

Home NPA

As used in connection with TOLL-FREE MEGACOM Service, the NPA of the TOLL-FREE MEGACOM Service Central Office from which a customer has obtained service. As used in connection with TOLL-FREE READYLINE, AT&T 800 Plan K, and AT&T 800 Plan P, the NPA from which a Customer obtains TOLL-FREE READYLINE, AT&T 800 Plan K, or AT&T 800 Plan P Service.

Interface

The electrical and physical means by which a connection is made at the station.

Local Exchange Service Access Line

A transmission path that connects a customer premise to an AT&T switched service via the local exchange company switched access.

Multiline Terminating System

Customer's or User's premises switching equipment and key telephone type systems which are capable of terminating more than one local exchange service line, WATS access line, circuit or Customer-provided communications system.

Off-Network Call

A call between a station on a Custom Network Service and a station which is not associated with a Custom Network Service.

On-Network Call

A call between stations on a Custom Network Service.

Premises

A building or buildings on continuous property (except railroad rights-of-way, etc.) not separated by a public thoroughfare.

2. GENERAL REGULATIONS

2.10 DEFINITION OF TERMS (continued)

Protective Circuitry

Discrete electrical circuitry that is within the scope of the Registration Program and is designed to protect Custom Network Service from harm.

Rate Center

A specified geographical location used for determining mileage measurements.

Rate Center Area

The area which encompasses the territories identified by the central office codes that are assigned to a rate center.

Registered

A term which means compliance with and approval within the Registration Program.

Registration Program

Part 68 of the FCC's Rules and Regulations which permits customer equipment to be directly connected to Custom Network Service and certain circuits without the requirement for protective circuitry.

Special Access Line

A dedicated communication path that connects a customer premises to an AT&T switched service using services obtained from his Company's PRICE LIST No. 9 and/or PRICE LIST No. 11, or access obtained from others.

Station

Any location from which Custom Network Service calls can be placed and/or received.

Switching Equipment

Equipment which performs the function of establishing and releasing connections on a per call basis between stations, telecommunications services, or communications systems.

Telecommunications Network

The MTS and WATS network provided by this Company.

Terminal Equipment

Any telecommunications equipment other than a multiline terminating system, or communications system connected to Custom Network Service at a customer's or user's premises.

3. AT&T COMMERCIAL LONG DISTANCE SERVICE

3.1 DESCRIPTION

AT&T Commercial Long Distance Service is a switched network service which permits Customer dialed outward calling from stations within the State of Utah. AT&T Commercial Long Distance provides for Dial Station calls originated on a line for which the subscriber pays a rate that is described as a business or commercial rate in the applicable local exchange service PRICE LIST for switched services. The rates and regulations for Dial Station calls other than AT&T Commercial Long Distance Service are specified in Section 2 of the Message Telecommunications Services section of this Price List. Intrastate service is an add-on to the interstate AT&T Commercial Long Distance Service and all terms and conditions, features and functions, and any other charges except intrastate usage will apply as described in AT&T's Business Service Guide. This schedule only applies to intrastate usage.

AT&T Commercial Long Distance rates do not apply to:

- (1) Conference Service Calls
- (2) Operator Handled calls
- (3) Calls to 700, 800 or 900 Special Service Codes

3.2 RATES AND CHARGES

3.2.1 Rate Determination

The charge for an AT&T Commercial Long Distance Service call is the sum of the initial and additional minutes' charge shown in Price List section. If the total computed charges for a call include a fraction of a cent, the fractional amount is dropped.

4. AT&T SDN ONENET SERVICE

4.1 DESCRIPTION

AT&T SDN OneNet Service permits outward calling, inward calling or a combination of both from a single or multiple Customer locations in the state of Utah. The outbound portion of AT&T SDN OneNet Service is a custom switched telecommunications service which permits a Customer to establish a communications path between two stations by using uniform dialing plans. AT&T SDN OneNet Service is available where facilities and operating systems exist. AT&T SDN OneNet customers may choose either TOLL-FREE MEGACOM or TOLL-FREE READYLINE for their inward calling. AT&T SDN OneNet allows Customers to bundle certain inbound and outbound usage for discounting and billing purposes.

Intrastate AT&T SDN OneNet Service is an add-on to interstate AT&T SDN OneNet Service. All terms and conditions, including service establishment charges, features and functions, discounts, monthly charges and any charges other than intrastate usage charges are described in the AT&T SDN OneNet Service Guide.

4.2 RATES AND CHARGES

Rounding of Charges

If the computed usage charges or credit for such charges include one-half cent or more, the fraction is rounded up to the next highest cent. Fractions of less than one-half cent are rounded down to the next whole cent, unless the cost of the call would total less than \$.01. The minimum charge for each intrastate OneNet call is \$.01.

6. AT&T UNIPLAN SERVICE

6.1 DESCRIPTION

AT&T UNIPLAN is a telecommunications service which permits outbound direct dial calling from single or multiple locations in Utah to stations within the state. AT&T UNIPLAN offers two types of access lines: Special Access and Switched Access. Intrastate service is complementary to interstate AT&T UNIPLAN Service and all terms and conditions, features, functions, discounts, installation and monthly charges, and any other charges except intrastate usage will apply as described in AT&T's Business Service Guide. AT&T UNIPLAN Service also includes alternative billing arrangements called FlatRate Pricing Option, Basic Service Option, OneRate Service Option, and OneRate Service Option II. The schedules only apply to intrastate usage.

An Integrated Outbound and Inbound Calling Option is also available. This option is an add-on to the Interstate Integrated Outbound and Inbound Calling Option. All terms and conditions and discounts are described in AT&T's Business Service Guide.

AT&T UniPlan Service OneRate Pricing Option IV-R (ORPO IV-R) permits customers to select the usage rate schedules specified in Price List Section in lieu of the rates specified for the standard ORPO. The AT&T UniPlan Service ORPO IV-R intrastate rate schedules provide postalized rates for Inward calling and Outward calling calls. The AT&T UniPlan Service ORPO IV-R customer must subscribe to the interstate AT&T UniPlan Service ORPO IV as described in AT&T's Business Service Guide. The AT&T UniPlan Service ORPO IV-R customers must subscribe to a new AT&T UniPlan Service 12- 24- or 36-month Term Plan as described in AT&T's Business Service Guide.

6.2 RATES AND CHARGES

Intrastate calls for Customers of AT&T UniPlan Service directly connected to an AT&T Central Office are rated from the rate center of the Customer's NPA-NXX rather than the rate center of the AT&T Central Office.

See Price List for Current Rates.

7. AT&T VIRTUAL TELECOMMUNICATIONS NETWORK SERVICE (VTNS)

7.1 DESCRIPTION

VTNS is a general offering of custom-designed voice telecommunications capabilities designed to meet specific Customer requirements. VTNS in Utah is provided as an add-on to the interstate VTNS offering, and is available only to Customers who subscribe to that service. Customers shall be entitled to the intrastate discounts to the extent set forth in their interstate VTNS contract arrangements. These intrastate discounts shall apply against Customer's intrastate charges and shall not be applied against a Customer's interstate charges. This PRICE LIST specifies intrastate voice transport and is being offered for eligible Utah Customers of VTNS who have a requirement for intrastate voice communications. All terms and conditions, features and functions, discounts, installation charges, monthly charges, and any charges other than AT&T VTNS intrastate voice usage charges are specified in the AT&T Business Service Guide. The following schedules apply only to intrastate usage.

Virtual Telecommunications Network Service (VTNS) Toll-Free Multimedia Service allows a VTNS Customer to add on a call-by-call basis, digital capabilities (at speeds of 56 kbps or 64 kbps where available) as well as voice, on one Port Access Telephone Number or Customer-specified Non-port Telephone Number. Intrastate VTNS Toll-Free Multimedia Service is an add-on to interstate VTNS Toll-Free Multimedia Service that is described in AT&T's Business Service Guide. All terms and conditions, features and functions, discounts, installation charges, monthly RATES AND CHARGES other than intrastate charges, may be found in AT&T's Business Service Guide. For access to the digital portion of VTNS Toll-Free Multimedia Service, the call originator is responsible for obtaining digital access where available. Digital capabilities will generally be available where the LECs make access available. An AT&T ISDN PRI per AT&T's Business Service Guide is required on the terminating end. The switched digital capability of VTNS Toll-Free Multimedia Service is described in AT&T's Business Service Guide.

7.2 RATES AND CHARGES

Intrastate calls for Customers of AT&T VTNS Schedules A and B, directly connected to an AT&T Central Office are rated from the rate center of the Customer's NPA-NXX rather than the rate center of the AT&T Central Office.

7. AT&T VIRTUAL TELECOMMUNICATIONS NETWORK SERVICE (VTNS)

7.2 RATES AND CHARGES (continued)

VTNS calls are rated using one of the following schedules.

VTNS Outbound Usage Schedules

A. Schedules A0 and A1

These schedules are for calls: (a) between Measured Ports, (b) between Rate Option 1 Measured Remote Ports, (c) between Measured Ports and Rate Option 1 Measured Remote Ports, (d) from any location to a location with a Measured Port or Rate Option 1 Measured Remote Port with the use of a Type I Authorization Code and (e) any other intrastate calls that would have been rated under Rate Schedule A in the Customer's VTNS Option in AT&T's Business Service Guide, if such calls had been interstate calls.

See Price List for Current Rates.

B. Schedules B0 and B1

These schedules are for calls: (a) from a Measured Port or Rate Option 1 Measured Remote Port to any location, (b) from a Customer-Specified Non-Port Location to a Measured Port or Rate Option 1 Measured Remote Port, (c) between any locations with the use of a Type I Authorization Code and (d) any other intrastate calls that would have been rated under Rate Schedule B in the Customer's VTNS Option in AT&T's Business Service Guide, if such calls had been interstate calls.

See Price List for Current Rates.

C. Schedules C0 and C1

These schedules are for calls: (a) from a Customer-Specified Non-Port location to any location, (b) from any location to a location with the use of a Type II Authorization Code, and (c) any other intrastate calls that would have been rated under Rate Schedule C in the Customer's VTNS Option in AT&T's Business Service Guide, if such calls had been interstate calls.

8. ACC BUSINESS SERVICE

8.1 DESCRIPTION¹

ACC Business Service is a Custom Network Service that permits Customer-Dialed inward calling and outward calling from one or more switched or dedicated customer locations.

ACC Business Service is an add-on to the interstate ACC Business Service which is described in AT&T Business Services Guide. All terms and conditions, administrative and operational functions, features and functions, discounts, and any charges other than the intrastate usage charges are specified in AT&T Business Services Guide.

The ACC Business Service customer must subscribe to the interstate ACC Business Service as described in AT&T Business Services Guide. The ACC Business Service customers have the option of subscribing to an ACC Business Service Term Plans as described in AT&T Business Services Guide.

ACC Business Service intrastate usage rate schedules provides postalized rates for Inward calling and Outward calling. ACC Business Service is a non-AT&T branded monthly service which permits customers to contract for one of four basic rates embedded in a monthly revenue commitment. The commitments are as follows:

Switched Access

12 Month Basic Rates Based on \$100 Revenue Commitment*
15 Month Basic Rates Based on \$150 Revenue Commitment*
12 Month Saver Rates Based on \$100 Revenue Commitment*
15 Month Saver Rates Based on \$150 Revenue Commitment*

*ACC Business Service Switched Access term rate plans referenced above are not available under this PRICE LIST or through any AT&T Contract Tariff or contract referencing this PRICE LIST to new Customers. Existing Customers of these plans in effect or on order prior to August 27, 2004 will continue under existing rate plan.

9. AT&T BUSINESS NETWORK SERVICE

9.1 DESCRIPTION

AT&T Business Network Service is a Custom Network Service which permits outward and inward calling from customer stations located in the state of Utah. AT&T Business Network Service allows the Customer to integrate their long distance, including directory assistance and local usage. ABN Service is provided via a Term Plan Contract which includes a term and revenue commitment as described in AT&T Business Service Guide located at <http://serviceguidenew.att.com/>.

The AT&T Business Network Service is an add-on to interstate AT&T Business Network Service. All terms and conditions, installation charges, discounts, features and functions, monthly charges, and any charges other than intrastate usage, are specified in AT&T's Business Service Guide.

9.2 RATES AND CHARGES

Network Connection Call Rating - ABN Service calls are differentiated and rated according to one of the following arrangements as ordered by the Customer:

- Fully Connected*: The transmission path for outbound calls must originate AND terminate via access facilities owned by Company or its CLEC affiliate. The transmission path for inbound toll-free calls must originate AND terminate via access facilities owned by Company or its CLEC affiliate.
- Partially Connected*: The transmission path for outbound calls must originate OR terminate via access facilities owned by Company or its CLEC affiliate. The transmission path for inbound toll-free calls must originate OR terminate via access facilities owned by Company or its CLEC affiliate.
- Standard*: The transmission path neither originates nor terminates via access facilities owned by Company or its CLEC affiliate.

See Price List for Current Rates.

*Effective July 1, 2008, the rates for these services are available to existing Term Plan customers through the end of the currently in effect contract term.

9. AT&T BUSINESS NETWORK SERVICE

9.3 ABN PRICING

AT&T Business Network Service calls are differentiated and rated according to one of the following arrangements, as ordered by new ABN customers or existing ABN customers who renew their Term Plan on or after July 1, 2008.

a. Switched

The transmission path neither originates nor terminates via access facilities owned by Company or one of its affiliates.

b. Loyalty

The transmission path for outbound calls must originate via Company-provided, Company-affiliated and/or Company-owned Local Exchange Services provided by an AT&T ILEC or AT&T affiliate. The transmission path for inbound toll-free calls must terminate via Company-provided, Company-affiliated and/or Company-owned Local Exchange Services provided by an AT&T ILEC or AT&T affiliate.

c. Dedicated

The transmission path for outbound calls must originate via AT&T Access Channel Services, as outlined in the ABN Business Service Guide. The transmission path for inbound toll-free calls must terminate via AT&T Access Channel Services, as outlined in the ABN Business Service Guide.

See Price List for Current rates.

9.4 Monthly Minutes of Use (MOU) Caps

Long Distance usage above the specified MOU Cap is not included in the Monthly Recurring Charge, but will be billed at a per minute rate as specified in the PRICE SCHEDULE. The following MOU Caps apply per account, depending on the access used:

Access Type	MOU Cap
DS-1/ISDN PRI	25,000 MOU per month
Trunk	1,250 MOU per month
Line	750 MOU per month

9.5 ABN PREMIER BUNDLE

ABN Premier Bundle may not be ordered on or after September 1, 2011. Customers who ordered the bundle before September 1, 2011 may keep it at their current location, may add lines and locations and may keep the service if they move locations.

ABN Premier is a bundled arrangement that provides an array of AT&T Affiliate products and services including AT&T Mobility Voice, and is ordered directly through AT&T's on-line Mobility web portal. Customer must agree to a 2-year ABN Premier term agreement and purchase online in order to qualify. Early Termination Fees may apply. The charges for Intrastate IntraLATA and Intrastate InterLATA services are as specified in the Price List.

See the AT&T Business Service Guide for complete service description, explanation of service usage, and terms and conditions.

9.6 AT&T BUSINESS NETWORK EXPRESS

ABN Express is a bundle service arrangement which requires Customer to enter into a term contract for an array of regulated and non-regulated products provided by multiple AT&T affiliates. The service is offered under a 2 year or 3-year term. Customer must contract for a minimum number of products across affiliates to be eligible. Early Termination Fees apply. The charges for the ABN Intrastate InterLata and Intrastate IntraLata services which are included in the bundle are as specified in the Price List.

10. AT&T ALL IN ONE SERVICE

10.1 DESCRIPTION

AT&T All In One Service is a custom network service that permits Customer dialed calling from and to single or multiple Customer locations in the State of Utah.

AT&T All In One Service is an add-on to interstate AT&T All In One Service and all terms and conditions described in AT&T's Business Services Guide, including installation and monthly charges, features and functions, and any other charges except intrastate usage, are incorporated here by reference and shall apply to intrastate AT&T All In One Service. AT&T All in One Service is furnished where facilities and billing capabilities permit.

10.1.1 Availability

AT&T All In One Service is available via Local Exchange switched access and via cellular access. The Customer is responsible for obtaining the Local Exchange Service Access Line. The Local Exchange Service Line must be pre-subscribed to AT&T as the primary interexchange carrier. The Customer's long distance cellular access must be pre-subscribed to AT&T as the primary interexchange carrier.

AT&T All In One Service is provided on a monthly basis and the Customer will receive a single monthly bill for all locations billed to the same Main Billed Account. The Customer is financially responsible for all locations included under the Customer's Main Billed Account.

10.2 RATES AND CHARGES

This section contains the RATES AND CHARGES for AT&T All In One Service.

10.2.1 Application of Charges

Usage charges apply to all completed calls and are based upon the applicable rate schedules. Usage charges are billed in arrears. The chargeable time for All In One Service calls is determined by the duration of the call. However, All In One Service calls have a 60-second minimum time requirement.

10. AT&T ALL IN ONE SERVICE

10.3 RATES AND CHARGES (continued)

10.3.2 Rate Methodology

For Inward, Outward InterLATA and IntraLATA direct dialed call types, the rate per minute applies for all days of the week including holidays.

1) Rate Plans A**, B*, C, D, E#, F**, G*, H** and K#

Calls are billed in full minute increments. Each call has a 60-second minimum time requirement and is rounded to the next full minute. Rounding to the nearest whole cent is employed.

2) Rate Plan J**

The chargeable time is determined by the duration of the call. The number of seconds of each call are converted into minutes (see example below). All calls have a 60-second minimum time requirement. Rounding to the nearest whole cent is employed.

Example: (\$0.1000 per minute rate):

Length of call in seconds: 124

Divide by 60 seconds and carry to 4 decimal places: $124 \div 60 = 2.0666$

Multiply by per minute rate and carry to 4 decimal places:
 $2.0666 \times \$0.1000 = \0.2066

Round to nearest whole cent

* AT&T All In One Rate Plans B and G may no longer be ordered after August 18, 2004. Existing customers with these rates plans in effect or on order prior to August 17, 2004 may continue their current plan under existing conditions.

** Effective September 1, 2006, All In One long distance Rate Plans A, F, H and J are not available to newly subscribing customers. Existing customers with these rate plans in effect or on order prior to September 1, 2006, may continue with their current plan under existing conditions. Existing customers may add new lines and/or features, but the addition of new locations is not permitted.

Effective August 18, 2004 AT&T All In One Rate Plans E and K will be withdrawn.

11. SWITCHED DIGITAL SERVICE (SDS)¹

11.1 DESCRIPTION

Switched Digital Service (SDS) provides for the switching and transmission of simultaneous two-way 56/64 kbps and 384 kbps mbps digital signals between two customer's premises. SDS consists of a common user digital network which is furnished between designated AT&T central offices for service within the state. An access line is required between each customer's premises and the SDS Central offices. AT&T Central offices are specified in AT&T Business Services Guide. Intrastate service is an add-on to interstate Switched Digital Service and all terms and conditions, features and functions, discounts, installation and monthly charges, and any charges other than intrastate usage are specified in AT&T Business Services Guide.

11.2 RATES AND CHARGES

See Price List for Current Rates.

11.2.1 SDS Volume Plan

The SDS Volume Plan offers special usage rates for new or existing Customers who sign up for a 1, 2, or 3 year term plan and commit to incurring at least \$50 - \$16,500 per month (\$600 - \$198,000 annually) in gross annual revenue.

See Price List for Rates.

11.2.2 SDS Volume Plan Discount

Effective August 8, 2006, AT&T will offer a 20% monthly discount on the SDS Volume Plan usage rates as specified in the Rate Schedule.

For months that the customer does not meet the monthly commitment, the customer will be billed the Volume Plan usage charges as specified in the Price List for that month. However, if the customer meets their annual commitment, a credit will be applied for the month(s) the customer usage was not discounted. This credit is equal to the difference between the undiscounted and discounted usage for that month. Additionally, this credit will expire within six (6) months of posting to that same account that generated the usage.

If the customer meets their annual commitment any time during the year, the customer will receive the discount for the remainder of the plan year as applicable.

¹ Effective July 15, 2023, AT&T Switched Digital Service (SDS) will no longer be available for purchase by new or existing customers. In addition, requests to move, add, change, or renew existing service arrangements will not be accepted. The Company currently plans to discontinue this service on or after July 15, 2024.

12. TOLL-FREE MEGACOM SERVICE¹

12.1 DESCRIPTION

TOLL-FREE MEGACOM Service is custom switched telecommunications services which permit inward 800 number calling from stations located in the state of Utah to an TOLL-FREE MEGACOM Service Central Office. Intrastate service is an add on to the interstate TOLL-FREE MEGACOM Service and all terms and conditions, features and functions, installation charges, monthly rates and any charges other than intrastate usage will apply as described in AT&T's Business Services Guide. This schedule applies only to intrastate usage.

TOLL-FREE MEGACOM is also provided with Connected Pricing as described in AT&T's Business Services Guide.

12.2 RATES AND CHARGES

Usage charges for TOLL-FREE MEGACOM Service is billed in arrears and are calculated on a per call basis. Individual calls will be measured with a minimum initial period of 30-seconds and additional 1-second increments, rounded to the next highest second or full increment.

See Price List for Current Rates.

12.3 AT&T TOLL FREE MULTIMEDIA SERVICE/AT&T WORLDWORX 800

This optional feature is an add-on to interstate AT&T Toll Free Multimedia Service/AT&T WORLDWORX 800. AT&T Toll Free Multimedia Service/AT&T WORLDWORX 800 allows an TOLL-FREE MEGACOM Service customer to include, on a call-by-call basis, voice and digital on one 800 number. All terms and conditions, discounts, installation and monthly charges, and any other charges except for intrastate usage are described in AT&T's Business Services Guide.

See Price List for Current Rates.

¹ Effective May 31, 2023, Toll Free MEGACOM Service will no longer be available to new customers or for contract renewals. Existing customers with Toll Free MEGACOM Service may retain their existing service, but may not conduct moves, adds or changes to the service on or after May 31, 2023. Existing customers with services provided under an unexpired contract will continue to receive the service pursuant to the terms and conditions of their contract until their current contract term expires. Upon expiration of such customer's contract and subject to the limitations on moves, adds, and changes described above, AT&T will provide the service on a month-to-month basis until the service is discontinued. During any month-to-month service period, AT&T may change the rates, terms and conditions of the Service upon notification. AT&T currently plans to discontinue the Service on or after October 30, 2026.

13. TOLL-FREE READYLINE SERVICE

13.1 DESCRIPTION

TOLL-FREE READYLINE Service is a custom switched telecommunications service that permits inward 800 number calling from stations located in the state of Utah to a Customer's station within the state. Intrastate service is complementary to interstate Custom 800 Services and all terms and conditions, features and functions, installation charges, monthly rates and any charges other than intrastate usage will apply as described in AT&T's Business Services Guide. This rate schedule applies only to intrastate usage.

13.2 RATES AND CHARGES

Usage charges for AT&T 800 Gold Services are billed in arrears and are calculated on a per call basis. Individual calls will be measured with a minimum initial period of 30-seconds and additional 1-second increments, rounded to the next highest second.

TOLL-FREE READYLINE Service is also provided with Connected Pricing as described in AT&T's Business Services Guide.

16. AT&T BUSINESS LONG DISTANCE

16.1 DESCRIPTION

AT&T Business Long Distance is a business voice service that permits Customer-dialed long distance calling from stations within a state, without requiring a pricing contract.

AT&T Business Long Distance is an add-on to the Interstate AT&T Business Long Distance and is only available to Customers who subscribe to the interstate service provided in the Interstate Business Service Guide. All terms and conditions, including service establishment charges, features and functions, discounts, monthly charges, and any charges other than intrastate usage charges are described in the Interstate Business Service Guide.

Customers may have long distance outbound, inbound, or both coverage on each line. This service permits Customer-dialed outward calling from a landline phone in the state to any telephone number within the state. Also, this service permits inward calling within the state, provided the calls terminate to a landline phone number within the state.

There are no early termination fees.

24. SOFTWARE DEFINED NETWORK SERVICE

24.1 DESCRIPTION

Basic SDN is not available, either under this PRICE LIST section or through any AT&T Contract Tariff or contract referencing this PRICE LIST to new or existing Customers who did not have it on order on or before July 31, 2001. Existing Customers with Basic SDN or Custom SDN in effect or on order prior to July 31, 2001 may continue under existing conditions. AT&T Contract Tariffs or contracts in effect or on order on July 31, 2001, which include Basic SDN shall also continue under existing conditions. Availability of Basic SDN to customers taking the Service pursuant to an AT&T Contract Tariff or contract will not extend beyond the current term of the applicable Contract Tariff or contract.

CUSTOM NETWORK SERVICES are offered to meet Customer needs for specialized CUSTOM NETWORK requirements of customers having a need to communicate between geographically dispersed locations.

24.2 REGULATIONS

24.2.1 Provision of Services

CUSTOM NETWORK SERVICES are fully supported by the Company through engineering, installation and maintenance efforts. The Company will assure that each service functions properly within its specified transmission and switching parameters.

A. Engineering

The Company will engineer to the specifications and parameters of the service provided.

B. Installation

When installation of a component is required, it will be installed subject to the availability of installation personnel and equipment. Installations will usually be made during normal working hours.

C. Maintenance

The Company will maintain and repair the services which it provides.

24.2.2 Transfer of Assignment

CUSTOM NETWORK SERVICES may be transferred or assigned to a new Customer. See AT&T's Business Services Guide.

24.3 ACCESS LINES

24.3.1 General

A CUSTOM NETWORK SERVICE access line connects a Customer premises or a Customer's private network to a CUSTOM NETWORK SERVICE. There are two types of access lines: local exchange service access and special access.

24.3.2 Local Exchange Service Access

The Customer's premises may be connected to an AT&T Central Office using a local exchange service line. When local exchange service is required to access a Custom Network Service, the customer is responsible for obtaining the local exchange service from the local exchange company

24.3.3 Special Access

The Customer's premises may be connected to an AT&T Central Office using special access and a central office connection. The rates and regulations for special access are found in AT&T's Business Services Guide. The rates and regulations for the appropriate central office connection are found in AT&T's Business Services Guide.

24.4 SOFTWARE DEFINED NETWORK SERVICE

24.4.1 General

Software Defined Network Service is a custom switched CUSTOM NETWORK service which permits a Customer to establish a communications path between two stations by using uniform dialing plans. Customer's stations are connected by access lines to designated AT&T Central Offices as set forth in AT&T's Business Services Guide. Software Defined Network service is a service designed to meet the CUSTOM NETWORK requirements of customers having a need to communicate between many geographically dispersed locations.

24. SOFTWARE DEFINED NETWORK SERVICE*

24.4 SOFTWARE DEFINED NETWORK SERVICE (continued)

24.4.2 Mileage Measurements

A. General

The mileage for Software Defined Network calls is the distance in airline miles measured between (1) the rate centers associated with the originating and terminating stations (Schedules A, B, C); (2) the V&H coordinates associated with an AT&T Central Office and the rate center associated with a station (Schedules F, H); or (3) the V&H coordinates associated with an originating and terminating AT&T Central Office (Schedules E, G). Each rate center or AT&T Central Office has a unique set of assigned vertical and horizontal (V&H) coordinates as described in AT&T's Business Services Guide. These coordinates are used for calculating mileage.

B. Calculation of Airline Mileage

Airline mileage is calculated as specified in the Private Line Services PRICE LIST.

C. Allocation of Usage Charges

The Company will not allocate the usage of a CUSTOM NETWORK SERVICE or the charges for such usage and is not responsible for the way the Customer may allocate usage or charges among multiple Users.

24.3 RATES AND CHARGES

A. General

Software Defined Network service charge is a recurring charge element which is usage-based. This usage charge applies to all completed calls.

B. Basic Service

See AT&T's Business Services Guide.

C. Software Defined Network Service Usage

Software Defined Network calls are rated using one of the following schedules. The charges for all calls during a billing month will be totaled. If the total charge includes a fraction of a cent, the fraction is rounded down to the next whole cent (e.g., \$4,101.356 would be rounded down to \$4,101.35).

AT&T Software Defined Network Service is also provided with Connected Pricing as described in AT&T's Business Services Guide.

26. AT&T MEGACOM WATS SERVICE

26.1 DESCRIPTION

26.1.1 General

AT&T MEGACOM WATS Service is a custom switched telecommunications service which permits outward calling from designated AT&T MEGACOM WATS Service Central Offices to stations throughout the state of Utah. Intrastate service is an add on to the interstate AT&T MEGACOM WATS Service and all terms and conditions, features and functions, installation charges, monthly rates and any charges other than intrastate usage will apply as described in AT&T's Business Services Guide. This schedule applies only to intrastate usage.

AT&T MEGACOM WATS Service may no longer be ordered after December 8, 2000. Existing Customers with AT&T MEGACOM WATS Service in effect or on order prior to December 8, 2000 may continue under existing conditions.

26.2 RATES AND CHARGES

26.2.1 Rates Schedule

Usage Charges on AT&T MEGACOM WATS Service are determined by the following rate schedules and billed in arrears.

28. AT&T ONE LINE WATS

28.1 DESCRIPTION

AT&T ONE LINE WATS is a switched telecommunications service for calling from stations located in the state of Utah to any station within the state where facilities and billing capability permit. Intrastate service is complementary to interstate and international service and all terms and conditions, features and functions, installation and monthly charges and any other charges except intrastate usage will apply as described in AT&T's Business Services Guide.

Effective June 8, 1998 AT&T One Line WATS is not available to new Customers. Existing Customers may continue their current service under existing conditions but cannot make any moves, changes or additions to this service.

28.2 RATES AND CHARGES

28.2.1 Usage charges are computed per call based on distance, duration, time of day and day of week. Rounding conventions, discounts and directory assistance charges are specified in AT&T's Business Services Guide.

29. AT&T SMALL BUSINESS OPTION

29.1 DESCRIPTION

AT&T Small Business Option is not available, either under this PRICE LIST or through any AT&T Contract Tariff or contract referencing this PRICE LIST to new or existing Customers who did not have it on order before June 24, 2001. Existing Customers with AT&T Small Business Option in effect or on order prior to June 24, 2001 may continue under existing conditions.

The AT&T SMALL BUSINESS Option is an outbound direct dial service offered where facilities and billing capabilities permit to customers who subscribe to AT&T's interstate SMALL BUSINESS Option. AT&T's SMALL BUSINESS Option in Utah is complementary to interstate service and all terms and conditions features, functions, discounts, installation and monthly charges except for intrastate usage will apply as described in AT&T's Business Services Guide. This rate schedule applies to intrastate usage.

See Price List for Current Rates.

29.2 DIRECTORY ASSISTANCE

A Directory Assistance charge applies to all calls made using AT&T SMALL BUSINESS OPTION that have access to a Directory Assistance bureau.

See AT&T's Deregulated Business Services Price List for Current Rates.

32. AT&T OPTIMUM SERVICE

32.1 DESCRIPTION

AT&T OPTIMUM is a telecommunications service which permits outbound direct dial calling from single or multiple locations in Utah to stations within the state. AT&T OPTIMUM offers two types of access lines: Special Access and Switched Access. Intrastate service is furnished where facilities and billing capabilities permit, and is complementary to interstate Custom Network Service. All terms and conditions, features, functions, discounts, installation and monthly charges, and any other charges except intrastate usage will apply as described in AT&T's Business Services Guide. The schedules only apply to intrastate usage.

Effective September 28, 1995, AT&T OPTIMUM Service is not available to new customers. Customers with AT&T OPTIMUM Service in effect or on order prior to September 28, 1995, may continue their service under this PRICE LIST.

32.2 RATES AND CHARGES

32.2.1 Rate Periods

AT&T OPTIMUM Service is offered at Peak and Off-Peak rates. The Peak rate period is 8:00 AM to, but not including 5:00 PM Monday through Friday. The Off-Peak period is 5:00 PM to, but not including 8:00 AM Monday through Friday, all day Saturday, and all day Sunday to, but not including 8:00 AM Monday.

33. AT&T PRO WATS UTAH

33.1 DESCRIPTION

AT&T PRO WATS UTAH provides subscribing Customers a discount on intrastate Dial Station Long Distance service calls over the standard time of day rates that apply as shown in Price List section.

Effective February 20, 1995, AT&T PRO WATS UTAH is not available to new customers. Existing AT&T PRO WATS UTAH customers billed by AT&T will have their service furnished and charged under AT&T PRO WATS/Plan Q specified in Section 20, Schedule A. Customers of AT&T PRO WATS UTAH on February 20, 1995, in areas where AT&T billing is unavailable, will continue to have their service furnished and charged under this AT&T PRO WATS UTAH PRICE LIST as long as such plan is offered.

33.2 REGULATIONS

A. Minimum Period

The minimum service period for AT&T PRO WATS UTAH is one month. Customers who retain service for less than one month will be billed the monthly recurring rate.

B. Restrictions

1. AT&T PRO WATS UTAH is provided only where billing capability permits.
2. Customers selecting AT&T PRO WATS UTAH may not subscribe to any other AT&T intrastate optional calling plan.
3. AT&T PRO WATS UTAH does not include Directory Assistance, Conference Service or Operator-Handled.

C. Application of Discount

1. The charges and discounts in effect under this plan apply to all lines and trunks billed to the same billing number (to one account).
2. The discount offered under this plan applies to the total intrastate AT&T Dial Station Long Distance service charges incurred for eligible usage during a billing period, not to individual messages.

33. AT&T PRO WATS UTAH

33.3 APPLICATION OF RATES AND CHARGES

The monthly rate is in addition to all rates and charges for all other telephone service.

If continuous service exceeds one month, the charges for a fractional part of a month will be a proportionate part of the monthly charges based on usage.

The plan discount will be applied to the total calling per billing period. If the monthly sum after application of such eligible additional discount does not result in whole cents, charges are rounded to the nearest penny when the bill is rendered.

33.4 RATES AND CHARGES

See Price List for current rates.

A. Recurring

	Charges	USOC
Monthly Charge per Account	\$5.00	TS1LV

A. Usage Discount

A discount of 15% will be applied to the total of the rated charges for Dial Station calls during the billing period.

B. Non-Recurring

Service and equipment charges apply.[1]

Note 1: The non-recurring service order charge will not apply when an AT&T PRO WATS State customer moves from its present location and, within 30 days, subscribes to AT&T PRO WATS State at its new location.

33. AT&T PRO WATS UTAH

33.5 DETERMINING RATES

The charge for AT&T PRO WATS UTAH Dial Station calls are determined by the distance between stations, time of day and day of week and duration of the call.

A. Mileages

1. Two-Point MTS rates between points in UTAH are based on the airline distance between rate centers.
2. The rate centers and the central offices, including area codes and central offices prefixes, for the State of UTAH are listed in AT&T's Tariff F.C.C. No. 10, in which this Carrier concurs. The methodology used to determine rate mileage is also contained in AT&T's Tariff F.C.C. No. 10.
3. In cases where a message begins in one rate period and ends in another, the Initial Period rate is the rate in effect at the time connection is established. The rate for the Additional Period is the rate in effect at the beginning of each Additional Period.

 Release: 0

33. AT&T PRO WATS UTAH

33.6 RATE STRUCTURE

AT&T PRO WATS UTAH Dial Station rates are quoted in terms of initial minute and additional minute rates.

Initial Minute rates are for connections of one minute or less.

Additional Minute rates are for additional whole minutes or fractions beyond the initial minute during which connection continues.

33.7 RATE PERIODS

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM to * 5:00 PM	DAY RATE PERIOD						
5:00 PM to * 11:00 PM	EVENING RATE PERIOD						EVE
11:00 PM to * 8:00 AM	NIGHT & WEEKEND RATE PERIOD						

* To but not including

33.8 TIMING

On AT&T PRO WATS UTAH calls, a message starts at the time communication is established between the calling station and the called telephone number.

Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If one station "hangs up" but the other does not, chargeable time ends when the telecommunications network connection is released by automatic timing equipment or by the operator.

Chargeable time does not include time lost because of faults or defects in the service.

The time of day at the calling party rate center determines whether day, evening or night/weekend rates apply.

33.9 HOLIDAY RATE SCHEDULE

On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, the evening rate is applicable, unless a lower rate would normally apply. When these holidays fall on different days, the evening rate applies to the resulting legal holidays.

38. WIDE AREA TELECOMMUNICATIONS SERVICE

38.1 DESCRIPTION

- A. Wide Area Telecommunications Service (WATS), by use of a WATS access line and the public switched network, provides for dial-type communications between a WATS termination and other exchanges within the State and in accordance with the regulations and schedules of charges specified in this PRICE LIST.
- B. A WATS access line provided by the Local Telephone Company which extends from the customer's premises to a central office. Each such line will be arranged at the customer's option for either outward or inward 800 Service but not for both.

The Outward WATS customer is furnished a WATS access line arranged for outward calling only. Outward WATS provides for directly dialed calls from a WATS termination to other exchanges in the State.

The 800 Service customer is arranged for inward calling only. 800 Service provides for dial-type calling to a WATS termination from other exchanges in the State.

- C. WATS is furnished only if the necessary service components are available. "Service components" shall include, but not be limited to, the existence of access and/or billing arrangements on an originating and/or terminating basis. In the absence of access arrangements between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station. If unusual costs are involved to make facilities available, the customer may have to pay additional charges.
- D. The United Telephone Company of the West Concur, except as specifically stated herein, in the regulations and rates as set forth in this PRICE LIST for service furnished to rate centers of specific locations in their territory.

Regulations and rates for the following items are excluded from the concurrence:

Customer terminal equipment or customer communication systems attached or connected to the facilities of the concurring company shall be in compliance with provisions of the PRICE LIST of the Company.

Effective June 8, 1998 AT&T WATS Service is not available to new Customers. Existing Customers may continue their current service under existing conditions but cannot make any moves, changes or additions to this service. Effective June 8, 1998 AT&T 800 Service is not available to new Customers. Existing Customers may continue their current service under existing conditions but cannot make any moves, changes or additions to this service.

38. WIDE AREA TELECOMMUNICATIONS SERVICE

38.1 DESCRIPTION (continued)

38.1.2 Limitation of Service

- A. WATS calls must be dialed and completed without the assistance of a Company operator except when facilities or conditions do not allow customer dial completion or when an interrupted call is reestablished by a Company operator.
- B. The Company does not undertake to transmit messages but furnishes the use of its facilities to its customers for communications.
- C. The design, maintenance and operation of WATS envisions that communications will originate or terminate at a WATS station for the purpose of communicating with stations in the specified service areas. Connections of communications system provided by the customer or Other Carrier to WATS may be made. However, the Company will not be responsible for the through transmission of signals or the quality of transmission on such connections.

D. Connection to Other Services

Connection of WATS to other services is permitted on a switched basis only. No permanent connection between WATS and other services may be established.

E. Availability of Service

In case of shortage of facilities exists at any time, either for temporary or protracted periods, the establishment of Message Telecommunications Service (MTS) shall take precedence over all other services.

F. Company Liability

In view of the fact that the customer has exclusive control of his communications over the facilities furnished him by the Company, and of the other uses for which facilities may be furnished him by the Company, and because of unavoidableness of errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the terms, conditions and limitations herein specified.

38. WIDE AREA TELECOMMUNICATIONS SERVICE

38.1 DESCRIPTION (continued)

38.1.2 Limitations of Service (continued)

F. Company Liability (continued)

The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in facilities furnished by the Company, occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer, or of the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error defect in transmission, or failure or defect in facilities occurs.

The Company shall be indemnified and saved harmless by the customer or customers against claims for libel, slander, or the infringement of copyright arising directly or indirectly from the material transmitted over the facilities or the use thereof; against claims for infringement of patents arising from combining with, or using in connection with, facilities furnished by the Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with the facilities provided by the Company.

When the lines of other telephone companies are used in establishing connections to points not reached by the Company's lines, the Company is not liable for any act or omission of the other company or companies.

G. Transmission Quality

Satisfactory transmission cannot be assured when the WATS access line is connected to other Company services or to customer equipment or services.

H. Completion of 800 Service Messages

800 Service is furnished upon condition that the customer obtain adequate service to permit the use of this service without interfering with this service or impairing it or without injurious effects upon it or any other service rendered by the Company. The Company, without incurring any liability, may terminate or refuse to furnish 800 Service to any customer who fails to comply with said conditions, provided that, in case of a termination of service, at least five days have elapsed following written notification to the customer by mail or in person of the Company's intention to terminate the service for such cause.

38. WIDE AREA TELECOMMUNICATIONS SERVICE

38.1 DESCRIPTION (continued)

38.1.2 Limitations of Service (continued)

I. Use of Service

WATS may be used by the customer or others authorized by the customer. Orders involving installation, rearrangement, billing, or discontinuance of service will be accepted by the Company only from the customer.

J. Abuse or Fraudulent Use

The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

The placing or acceptance of a WATS call by a WATS customer, his agent, employee or representative, in response to an uncompleted MTS call, which was not completed in order to transmit or receive intelligence without the payment of the applicable message toll charge;

The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, WATS by rearranging, tampering with, or making connection with any facilities of the Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular rates and/or charges for such service;

The use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment, or harass another;

The use of profane or obscene language;

The use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other customers.

38. WIDE AREA TELECOMMUNICATIONS SERVICE

38.1 DESCRIPTION (continued)

38.1.3 Application

A. General

WATS usage charges are for payment for the service between the WATS termination and another location.

B. Service Group

The term "Service Group", as used in connection with Outward WATS, denotes one access line or two or more access lines appearing in the same multiline terminating system at the same customer premises.

The term "Service Group", as used in connection with 800 Service, denotes the access lines arranged in central office equipment furnished by the Local Telephone Company as part of a given hunting arrangement. (The term "hunting arrangement" denotes a grouping of 800 Service access lines arranged for the completion of a given call or arranged for overflow to or from another access line or group of access lines.)

Section 38
Page 6
Release: 0

38. WIDE AREA TELECOMMUNICATIONS SERVICE

38.1 DESCRIPTION (continued)

38.1.3 Application (continued)

C. Chargeable Time

Chargeable time begins when connection is established between a station associated with the WATS access line and the calling or called station.

Chargeable time ends when the calling or called station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telecommunications network.

When 800 Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communications system, chargeable time begins when the call terminates in or passes through the first Multiline Terminating System or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the 800 Service so that the chargeable time may begin.

The minimum service period for WATS is one day.

D. Payment of Charges

The customer is responsible for payment of all charges for service furnished the customer. Installation and/or service charges are payable upon establishment of service. All other charges from time to time in force and effect are payable monthly in advance, except hourly usage charges, which are payable upon rendition of a bill by the Company.

Charges of less than a cent will be rounded to the nearest cent.

E. Fractional Periods

The charge for a fractional part of a month will be a proportionate part of the monthly rate based on the actual number of days the service is provided.

For the purpose of administering this regulation with respect to the determination of the charge for a fractional part of a month, every month is considered to have 30 days.

Section 38
Page 7
Release: 0

38. WIDE AREA TELECOMMUNICATIONS SERVICE

38.1 DESCRIPTION (continued)

38.1.3 Application (continued)

F. Minimum Average Time Requirement (MATR)

Usage is subject to an average of one minute per completed call in each rate period for each billing period. This means that if the average duration per call in any rate period during each billing cycle is less than one minute, billing will be based on an average duration of one minute per call.

G. Method of Determining Rates

1. Determine the total number of calls for the service group.
2. Determine the equivalent hours used by applying the minimum average time requirement of 60 seconds (1 call = 1 minute).
3. Determine the total actual hours used for the service group.
4. Determine the chargeable hours which is the greater of (2) or (3) preceding, rounded to the nearest tenth (one decimal place).
5. Determine the number of access lines in service during the month. Access lines in service for a fraction of a month are based on the number of days in service divided by 30 days. The result is rounded to the nearest hundredth, two decimal places.
6. Determine the average use per line in the service group by dividing the chargeable hour in (4) preceding by the number of access lines in (5) preceding.
7. Determine the usage charge per line by multiplying the hourly rate in the appropriate taper(s) by the number of hours used in each taper and totaling these charges.
8. Determine the total usage charge in the service group by multiplying the usage charge per access line in (7) preceding by the number of access lines in (5) preceding.

8. ACC BUSINESS SERVICE

ACC Business Service intrastate usage rate schedules provides postalized rates for Inward calling and Outward calling. ACC Business Service is a non-AT&T branded monthly service which permits customers to contract for one of four basic rates embedded in a monthly revenue commitment. The commitments are as follows:

SWITCHED ACCESS

12 Month Basic Rates Based on \$100 Revenue Commitment
15 Month Basic Rates Based on \$150 Revenue Commitment
12 Month Saver Rates Based on \$100 Revenue Commitment
15 Month Saver Rates Based on \$150 Revenue Commitment

DEDICATED ACCESS

TERM PLAN	TIER	MMUC (Minimum Monthly Usage Commitment)
12-Month	1	\$200
	2	\$250
	3	\$500
	4	\$750
24-Month	1	\$200
	2	\$250
	3	\$500
	4	\$750

ACC Business Outbound Service does not include:

- Conference calls,
- 800 calls, and
- Calls to 900 Special Service Codes

ACC Business Inbound Service calls are dialed and completed without the assistance of a Company operator and do not include:

- Conference calls,
- Any other classification of operator-handled calls

New intrastate Customers and winback Customers who renew their ACC Business plan will receive the interLATA Switched Month-to-Month and 12 Month Saver rates as shown in Sections 23.1.7 and 23.1.8. New intrastate Customers and winback Customers who renew their ACC Business plan will receive the dedicated 12-Month and 24-Month Term Plan rates as shown in Section 23.1.9.

8. ACC BUSINESS SERVICE

ACC Business Service is an add-on to the interstate ACC Business Service which is described in the AT&T Business Services Guides. All terms and conditions, administrative and operational functions, features and functions, discounts, and any charges other than the intrastate usage charges are specified in the AT&T Business Services Guides.

The ACC Business Service customer must subscribe to the interstate ACC Business Service as described in the AT&T Business Services Guides. The ACC Business Service customers have the option of subscribing to an ACC Business Service Term Plans as described in the AT&T Business Services Guides.

Rates and Charges

ACC Business Service rates are usage based and apply to the initial 30 seconds or fraction and to each additional 6 seconds or fraction. ACC Business Service intrastate usage rate schedules provide postalized rates for Inward calling and Outward calling.

ACC Business Service Dedicated service usage rates are billed in 6 second initial and 6 second additional billing increments. All completed calls will be billed a minimum of the 6 second initial rate.

¹ Effective May 31, 2023, Toll Free MEGACOM Service will no longer be available to new customers or for contract renewals. Existing customers with Toll Free MEGACOM Service may retain their existing service, but may not conduct moves, adds or changes to the service on or after May 31, 2023. Existing customers with services provided under an unexpired contract will continue to receive the service pursuant to the terms and conditions of their contract until their current contract term expires. Upon expiration of such customer's contract and subject to the limitations on moves, adds, and changes described above, AT&T will provide the service on a month-to-month basis until the service is discontinued. During any month-to-month service period, AT&T may change the rates, terms and conditions of the Service upon notification. AT&T currently plans to discontinue the Service on or after October 30, 2026.

24. SOFTWARE DEFINED NETWORK SERVICES (SDN)

Usage Schedules

Basic SDN is not available, either under this PRICE LIST section or through any AT&T Contract Tariff or contract referencing this PRICE LIST section, to new or existing Customers who did not have it on order on or before September 26, 2001. Existing Customers with Basic SDN or Custom SDN in effect or on order prior to September 26, 2001 may continue under existing conditions. AT&T Tariffs or contracts in effect or on order on September 26, 2001, which include Basic SDN shall also continue under existing conditions. Availability of Basic SDN to customers taking the Service pursuant to an AT&T Contract Tariff or contract will not extend beyond the current term of the applicable Contract Tariff or contract.

Intrastate calls for Customers of AT&T SDN Schedules B and C following, directly connected to an AT&T Central Office are rated from the rate center of the Customer's NPA-NXX rather than the rate center of the AT&T Central Office.

A. Schedule A

This schedule applies to calls between two on-network stations which use local exchange service access lines or between an on-network station which uses a local exchange service access line and an off-network station or between two off-network stations in Utah.

Where the Customer has obtained Connected Pricing as part of its interstate Software Defined Network Service Schedule A also applies to calls between two on-network stations that use Non-Qualifying AT&T-Connected Access, between two off-network stations which use Non-Qualifying Local Exchange Service Access, or between an on-network station that uses Non-Qualifying AT&T-Connected Access and an off-network station in Utah that uses Non-Qualifying AT&T-Connected Access.
