We would like to request and extension for the due date for our 2024 Gross Revenue Report. Could we please have a 30 day extension? The reason for request is because we went through a financial system conversion that started on December 1st and we're still working through the kinks. Because of the conversion our Annual audit was also pushed to March of this year and it's usually in January. So as you can imagine we're running a bit behind our normal schedule.

Any favorable consideration you can give for the extension is greatly appreciated.

Kind Regards,

DeEtte D Wall
