Re: **Docket No. 25-2303-01**, Hanksville Telcom, Inc. - 2025 Annual Review of calendar year 2024 determining UUSF eligibility.

Recommendation (Approve)

The Division of Public Utilities ("Division") recommends the Public Service Commission of Utah ("Commission") adjust the Utah Universal Service Fund ("UUSF") payable to Hanksville Telcom, Inc. ("Hanksville" or "Company") to \$17,044 annually, or \$1,420.30 monthly, effective January 1, 2026. This represents a decrease of \$(54,094.37) annually, or \$(4,507.86) monthly, to the amounts the Company received in 2025.

The recommended UUSF annual distribution amount includes a reduction resulting from the repayment of Excess Deferred Income Taxes (EDIT) of [REDACTED] for the repayment of EDIT resulting from the 2024 reduction in Utah state income tax from 4.65% to 4.55% due to Senate Bill 69. This amount represents the entire EDIT balance from the 2024 reduction in state income tax. The Company has requested that the full amount be repaid in this review due to the immaterially small amount.

- 2) Allocation Adjustments – Based on the Company's allocation manual, the accounting of shared equipment, materials, and supplies are allocated between regulated and non-regulated companies and operations. Expenses that are appropriately shared among one or more related entities are allocated their portion of shared expenses based upon the cost-causative and direct relationship to the appropriate cost pool. The Company's allocated amounts changed from the previous year due to its cost-causative calculated share amount, but the allocation methodology remained the same.
