Dear Mr. Hardy,

An email (and attachment) from you dated December 22, 2025, was received by the Utah Public Service Commission ("PSC"). That email states "[p]lease see attached responses to the Questions from the Utah PSC from LTE Wireless[.]" and the attachment is titled "Response to Public Service Commission of Utah Questions". Your email and the attachment are (1) inaccurately titled because the PSC did not pose the questions identified in the attachment to Applicant; and (2) were therefore likely misdirected as your email and attachment were sent to the PSC. I will also note that the email address for Alex Ware, one of the intended recipients of your email, is inaccurate.

Applicant is again reminded of its obligations to understand the Utah Rules of Administrative Procedure applicable to this proceeding.

All parties included in your December 22, 2025, email are cc'd on this email, with Alex Ware's email address corrected. Any further communication regarding this email should not be directed to me, but should be directed to the Public Service Commission's email address (identified in the "cc" field) and should also include all other recipients identified as "cc's" in this email.

Thank you,

John Delaney
