Effective: ~~4-17-2008~~2-1-2026

2. GENERAL REGULATIONS

2.4 PAYMENT ARRANGEMENTS AND CREDIT ALLOWANCES (Cont'd)

2.4.5 VARIABLE TERM PRICING PLANS

Effective February 1, 2026, upon the contract or service term expiration of Metro Optical Ethernet (MOE), if customer does not enter into a new contract or service term for their service(s) at existing locations, then the contract or service term rates in effect at the time of the contract or service term expiration will continue on a month-to-month basis. CenturyLink may, with 30 days' notice, change any MOE contract or service term rates that are continued on a MTM basis after contract or service term expiration. The MOE service provided on a MTM basis can be terminated by either party upon 30 days' notice.

(N)

(N)

Advanced Communications Services may be ordered on a month-to-month basis or for fixed periods of one, two, three, four, five, six or seven years, unless otherwise specified.

The initial order for Metro Optical Ethernet (MOE) must be for one of the fixed service periods; however, at the completion of the initial fixed period, the customer may elect the month-to-month option or any of the fixed service periods.

A. Fixed-Period Service Pricing Plans

The fixed-period service pricing plans allow the customer to order service with the assurance that during the period of the service pricing plan monthly rates for the purchased service will not exceed the levels in effect at the time the service is ordered, except as may be ordered by the Utah Public Service Commission.

11.1 DESCRIPTION

11.1.1 GENERAL

Metro Optical Ethernet (MOE) Service is a flexible, easy-to-use transport service that uses established Ethernet transport technology. MOE allows customers to connect multiple enterprise locations within a service area using native Ethernet protocol. MOE is available over two distinct designs: Customer Premises and Central Office.

Customer Premises MOE supports transmission speeds as low as 1 Mbps and up to 1 Gbps in increments of 10 Mbps from 10 to 100 Mbps, and in increments of 100 Mbps from 100 to 1,000 Mbps. Central Office MOE supports transmission speeds of 100 Mbps, 600 Mbps and 1,000 Mbps.

A MOE customer may request Special Facilities Routing (i.e., Diversity and Avoidance) as set forth in the Access Service Tariff, Section 11.

Technical Specifications for MOE Service are delineated in Qwest Corporation Technical Publication PUB 77411, listed in this Tariff under Reference to Technical Publications.
