DOCKET NO. 99-2299-01  
REPORT AND ORDER

ISSUED: April 21, 2000

SYNOPSIS

By this Report and Order, the Public Service Commission of Utah (the "Commission") grants the request of INTEGRA TELECOM OF UTAH, INC. ("Applicant"), for a Certificate of Public Convenience and Necessity ("Certificate") authorizing Applicant to provide local exchange services within the State of Utah in the service territory of U.S. West Communications, Inc. The Commission, having considered the record in this proceeding and the applicable law, hereby makes, adopts, and enters the following Report and Order.

By The Commission:

PROCEDURAL HISTORY

INTEGRA TELECOM OF UTAH, INC. ("Applicant"), filed its Application for Authority to Provide Local Exchange Service on November 30, 1999, pursuant to Utah Code Annotated § 54-8b-1.1 *et. seq.*, and Title 63, Chapter 46b of the Utah Administrative Procedures Act. U.S. West Communications, Inc. ("USWC"), the Incumbent Local Exchange Carrier ("ILEC") has been notified of the Application and has filed a petition to intervene. USWC does not oppose the Application *per se*, but wishes to raise the issue of flexible pricing for itself in light of the prospective enhanced competition. To that end, USWC wishes any grant of authority to include a requirement that Applicant notify USWC in advance of offering any service so that USWC may petition the Commission for price flexibility. Failing the Commission's imposing such a restriction, USWC asks for a hearing in Docket No. 99-049-17. Since the Commission has scheduled a hearing in that docket, we consider we have already granted that branch of USWC's petition, and we decline to grant the order. We do not perceive the need for an evidentiary hearing in this Docket.

Since there appears to be no meritorious opposition, and Applicant has made out its *prima facie* case in support of the application, there appears to be no reason to convene an evidentiary hearing on the matter. Accordingly, the Administrative Law Judge, having been fully advised in the premises, enters the following Report, containing proposed Findings of Fact, Conclusions of Law, and the Order based thereon.

8. Applicant has sufficient financial resources and abilities to provide the public telecommunications services for which it has applied for a Certificate.
9. In its provision of intrastate services, Applicant will be subject to competition from USWC and other certified local exchange providers.
10. Applicant's service offerings will provide customers with a wider range of choices in meeting their telecommunications needs and will support the development of competition.
11. The issuance of a Certificate to Applicant to provide public telecommunications services is in the public interest.
