)	

Now comes Frank J. Cumberland, pro se, and advises the Public Service Commission ("PSC") and the applicant and its counsel of his intention to intervene, with the permission of the PSC, in the proceedings attendant to the applicant's proposal to increase its water rates and to alter its regulations.

Your Intervenor is a resident of the area served by the applicant and is a customer of the applicant, and therefore has a direct interest in the application. Your Intervenor has also consulted with a number of other resident/customers of the applicant and can, should the PSC desire, act as a clearing house for comments and concerns of others without the necessity of their applying for intervention, themselves.

Your Intervenor has also had direct experience with the applicant and its owners and officers over the past six years and, as a result thereof, has reason to question the veracity of many of the factual assertions contained within the Application. Accordingly, to the extent reasonably possible, your Intervenor wishes to submit Data Requests, or to ask that the PSC do so on its own behalf, in order to test the veracity of the factual assertions underlying the Application.

Your Intervenor further requests that any hearing or hearings on the Application be postponed to a date which will allow promulgation of such Data Requests and a reasonable time for the applicant or its counsel to respond thereto.

WHEREFORE, your Intervenor respectfully requests an order permitting him to intervene in these proceedings forthwith as an interested party, and to allow him to submit Data Requests to the Applicant or to request that the Public Service Commission do so on its own behalf.

Dated this 10th day of January, 2007.

Respectfully Submitted,
Frank J. Cumberland, pro se
