RE: Dammeron Valley Water Works – Audit of Operations and Billing Practices; **Docket No. 07-2025-01**

We are currently in the process of reviewing the water utilization and customer billings for years 2004, 2005 and 2006. The review is quite complicated and time-consuming because of different service types and rates applied to each type. Although the audit was requested by August 5, I will need a little more time to complete the analysis. Hopefully, the analysis and report will be completed no later than August 29, 2007. Thank you for your consideration with this project.

Sincerely,

Division of Public Utilities
Paul Hicken, Utility Analyst II
