RE: Docket #09-2179-01

The special assessment fee and rate increase being proposed by the Pine Valley Irrigation Company is absurd!

We are aware that they did a tremendous amount of work last year to improve the water supply system here in Pine Valley but when we ask if that was going to increase our water rates, we were told no because they had received a grant to do the project.

Now, if they received a grant, why are we going to be charged excessive water fees? If they did not get a grant, then who started and spread the rumor that led the residents of Pine Valley to believe that the improvements would not affect their water bill?

The proposed increases are exhorbitant and should not be allowed.
