Subject: Pine Valley Rate Increase

Mr. Watts I have received an email and notice of rate increase from the Pine Valley Irrigation Company from my friend Al Kingham. I have not received prior notice of this meeting. I live at:
Pine Valley. I have received no notice in a water bill or other type of notice.

What is the reason for the assessment and what is the amount?? We already have a higher rate than the surrounding areas. Why is the rate increase needed?? Is there a need to raise it so much? Until I have more info from you or the water company I will have to say "NO!!". In these bad economic times I do not feel that now is the time to raise my water rates without a very very good reason.

KEITH KELLEY, ABR CRS
