

UTAH PUBLIC  
SERVICE COMMISSION

Public Service Commission of Utah-Water Dept.  
160 E. Broadway  
Salt Lake City, Utah 84111

2010 MAR 1

ATTN: Jennifer

273263

RECEIVED

March 9, 2010  
RE: Docket No.09-2440-01  
Increase of Hidden Creek Water Company

To Whom it may concern:

We would like to have an opportunity to reopen the hearing that took place without our knowledge. We feel that the increase of 400% is greatly above the average cost of living increase which is about 2% each year so over the past 11 years an increase of 22% would not be unreasonable. This rate is 4 times the rate of any other community in the canyon.

We as a community would be willing to buy the 2 extra pumps that would be needed as a backup and have them standing by for any emergency. We have paid for road repairs and other needs that the community has had without fail.

We feel that all of this was done without our knowledge. We had our association meeting in December with Tracey Tanner and she did not bring this up although she had already filed this motion. We feel it only fair that we should be able to present our side at another meeting with the commission.

Sincerely,

Steve and Sharon Thompson
