August 12, 2009

Dear Mr. Miller:

I am sending our Culinary Water Master Plan Update and have tabbed several sections within the booklet that I would like to bring to your attention. The information in these sections will be informative in regards to making decisions on increasing our rates.

We are requesting and increase to our impact fees as well as our culinary water rates as shown in the attached fee schedule. We are also adding fees to our fee schedule which include an Assistance Fee of \$50.00 during business hours and \$75.00 outside of business hours, and a Fire Hydrant Flow Test Fee of \$100.00. We have also added a Private Fire Service User Fee that you will see in the attached documentation along with the study provided by the engineering group at Bowen, Collins and Associates.

Along with the fee schedule, we are also including a copy of our independent auditors' report and consolidated financial statements for 2007 & 2008. For additional information you will find a copy of the December 31, 2008 balance sheet for all three companies on the same format that was sent out previously.

If you need additional information or have questions regarding any of this information please feel free to call me.

Respectfully,

Darrin L. Jensen  
C.E.O. / General Manager  
WaterPro Inc.
