Dear Water Users,

I asked David today to clarify whether or not things have been settled for sure with his attorney, making Cedar Ridge a mutually-owned water company. He said that is the direction they have been getting but that it will not be forced upon us against our wishes. The lawyer wants to meet with us sometime soon to explain why he feels the mutually-owned type is the best option and for David and for all of us. They are looking to pick a Thursday night a few weeks from now. In the meantime we'd be wise to study and educate ourselves as much as possible about our options. And forget the committee idea...it was a dud...sorry.

Barbara A
