Mr. J. Craig Smith and Mel Smith:

On April 27, 2012 the Intervener's First Data Request on Docket Nos. 11-097-01, 11-097-02 and 11-097-03 was sent requesting a response within 30 days. To date we have received no response from Mountain Sewer or Lakeview Water to this request even though Bill Duncan, DPU said today that, "I did place an informal call to Mel Smith on 6/7 to remind him about their responsibility to answer data requests in a timely manner."

Because a response from Mountain Sewer and Lakeview Water is long overdue this e-mail is being sent in an effort to obtain your voluntary cooperation to responding to our data request short of our filing a motion to compel.

Since it has now been 44 days since our data request was sent to you please provide the required information to us by Thursday, June 14, 2012.

Sharon and Larry Zini
