RE: Mountain Sewer – Docket Number 11-097-03

To whom it may concern,

I am a resident at [REDACTED] in the community of Edgewater Chalets. We receive water and sewer service from Mountain Sewer which I understand is requesting rate case changes that Commission members will consider.

While I think it is reasonable for Mountain Sewer to request a modest rate case increase consistent with conducting business and providing services going forward, I am very much opposed to paying any special assessment or interim rate increase that attempts to recoup funds that stem from the prior ownership of Mountain Sewer. I am also opposed to paying any legal fees related to the sale of the utilities or the formal complaint filed regarding Mountain Sewer service and/or billing problems.

I hope that you will carefully consider our input as home owners and customers of Mountain Sewer when you deliberate and decide upon their application for general rate case.

Respectfully,

Allen Hauser
