RE: Docket 12-2443-01

Enclosed please find page 6 of the WaterPro Tariff reflecting the requested new Engineer Plan Review Fee and Engineering Fee.

The Engineer Plan Review fee is being updated to \$580.00 to reflect the actual cost that WaterPro incurs from the engineers.

The Engineering Fee on our current tariff reflects a typo leading back to 2004. We are now updating the tariff to reflect the actual fee that is being charged to us by the engineers. This fee is passed on to the developer for engineering review to meet WaterPro specifications.

Enclosed are five copies and the required electronic version will be emailed to the PSC today.

Sincerely,

Darrin L. Jensen
C.E.O.
