I am writing regarding the hearing that is about to take place concerning Hi Country Estates Ph1 and the well lease agreement. I am concerned, that if the well lease agreement is allowed to go thru, we the homeowners will be the ones to absorb the cost of supplying the water. Over the 20+ years we have lived here, we have paid time and time again for things that Rod Dansie has been able to manipulate to his favor. I feel it would be unjustly, and do not believe that the well lease agreement is a valid agreement. Please do not put this on the homeowners of High Country, we have put up with many years of law suits, arguments, and bad feelings long enough. Mr. Dansie has been getting something for nothing for far too long. Please find the well lease agreement unfavorable and unjust.

Thank You
