My name is JoAnn Rasmussen, Lot #53 13774 S. Shaggy Mountain Road Hi Country Estates Phase I. I have live here at my current residence for 39 years. Of those 39 years we have spent 33 plus years fighting The Dansie family and mostly Mr. Rod Dansie over the water system, our water meters, and all other aspects pertaining to our water usage. We have spent thousands of dollars in court and attorneys fees and have maintained and repaired the system with all volunteer help of the homeowners. In the past we have suffered thru the actions of Rodney Dansie stealing and jerking our water meters out of the ground after dark, late at night, purposely turning off the water and many other malicious acts. Trying to steal water in many various ways, with his attitude he and his family should not ever have to pay for any water. Again many attorney fees and court costs. Many hearings have been set and continued over the years, with Dansie playing out the role of not being able to attend or some other interesting act.

I attended the hearing scheduled March 4, and was very disappointed with the decision to continue this hearing because of the unfortunate circumstane that Mr. Rodney Dansie has been hospitalized. His attorney was present to represent him. The hearing should have taken place to accomodate those \who put out the effort to attend . This rate case and the well lease agreement needs to come to an end, taking in consideration all those who make the special effort to put in their time to attend and fight for our association. to attend and those who have attended in the past. Not those who cannot be there. .

Docket # 13-2195-02 Lot #53 Shaggy Mtn. Road
Lyman and JoAnn Rasmussen

Regarding the proposed rate hikes involving the water system. We are asking the PSC and PUC to please review the proposed rates and reconsider lowering all aspects. We are opposed to the high increase that has been proposed as they are rediculously high and are asking that you take in consideration a smaller increase to accommodate the needs over a long period of time. .

Thank you
Lyman and JoAnn Rasmussen
