To Whom it may Concern:

My name is Gary Frech, I live at 13899 S. Shaggy Mountain Road in Hi-Country Estates Phase I. I served on the Hi-Country Board of Directors for 10 years during the legal case with Mr. Dansie. I also served 2 or 3 years on the water board during this time period. I personally donated over 1000 hours to the benefit of Hi-Country Estates mostly in defense of Mr. Dansie's continual law suits. As one who knows this case intimately I strongly urge you to find the well lease in not in the interest of good public policy. We as rate payers should not be burdened with costs of an agreement between two parties that had no ownership in the Hi-Country Water System.

As far as rates to be paid, I understand that we must build an emergency fund. I would ask that the amount to be accrued should be done over a long period of time so the impact on users is reduced in the immediate term. I have heard that the rate of non-users of the water system, (Standby Customers) could be assessed as high as \$50 dollars per month. This rate is too high. Thank You for considering my input into your decisions.
