RECEIVED
In the matter of the formal complaint Docket No. 13-2477-02-
Eagles Landing Residents vs. Eagles Landing Water Company
LLC (David Olsen), please accept the following pre-filed
testimony including exhibits from the complaintants.

In summary, we are seeking to have all the \$4100 billings for
water hook-up and meter set removed for all residents billed.
(\$1100 for the Butterfields)

Credit for overbilling of \$20 a month per household since June
2010 or back to the date residents moved into their homes and
started paying their water bills.

Credit for the generator cost from June 2012.

**A check was received for \$129.17 from Dave Olsen addressed
to Ron and Diane Workman on December 11, 2013, included in
their water bill.

We are unaware if the previous business practices performed
by those associated with the water company are criminal, but
they most definitely are unethical.

With Respect,

Eagles Landing Residents
