Bill and Maria,

I received a phone call from RaeLeen Duncan regarding some developments on Docket 13-2477-02, the Formal Complaint of Eagle's Landing Residents. RaeLeen is one of the complainants in this case. Her contact information is 801-687-6699. She alleges that since "Dave" received the complaint (Monday, November 4th), he has taken the key to the water tank so that the residents do not have the ability to refill it, and that he has threatened some of the residents with shutting off the water to their homes. She will be submitting these allegations via email to me, which I will then forward to you. I wanted to make you aware of these developments.

Sincerely,

--
