Mr. Beck,

The telephone meeting with the Commission was a scheduling conference only. This means that the parties would provide dates where each party would meet certain deadlines for discovery and to have evidence available to the other party and to set a date before the Commission where a hearing would take place in person. It wasn't a telephone conference to resolve the issues between the parties. The Commission is encouraging both parties to meet together and show what evidence each other has with regards to the water usage and to see if this can be resolved without a hearing before the Commission.

Lakeview Water would really like the parties to meet to see if we can get this resolved. Please let us know at your earliest convenience some available dates you have and we will work our calendars around the best time for you.

Thank you. We look forward to hearing from you.

Subject: Re: Meeting re: Lakeview Water

Why this is exactly how the meeting with the Courts was set up and they were fine with it?

Daniel

Thank you.
