

Anticipated Growth Showing Minimum and Overage Gallon Used –

Community Water does not anticipate additional growth. We understand our system is running at capacity and do not have the ability to add new customers. We are currently undergoing a water rights evaluation to ensure stability moving forward.

The total usage for 2014 was 45,619,250 gallons.

The total usage for 2013 was 41,278,144 gallons.
