Attorneys for Community Water Company

BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH

In the Matter of Community Water Company, LLC)	DOCKET NO. 16-098-01
)	Community Water Company's
)	Amended Interim Rate Hearing
)	Exhibit B
)	
)	
)	

Interim Rate Increase Applicant Community Water Company (“Company”) submits this Amended Exhibit B. (Attached).

The original Exhibit B was entered into the record for illustrative purposes at a hearing on the Company’s Application for an Interim Rate Increase held on September 13, 2016. In response to intervenor comments, Exhibit B was entered for the purpose of presenting and discussing the Company’s proposed application of the Division’s recommended rate structure to the Red Pine HOA and Townhomes and the Plat B&D HOA and Townhomes. The hearing resulted in several productive discussions regarding Exhibit B and the Company’s proposed billing methodology.

After the hearing, the Company was contacted by intervenor Terry Lange to discuss Exhibit B. Mr. Lange attended the September 13, 2016 hearing telephonically. Mr. Lange made

several recommendations the Company feels are appropriate and merit amendment of Exhibit B. Specifically, to calculate the Monthly Usage Charges for the Red Pine Chalets the price blocks within each recommended Tier should remain at (per 1000 gallons). The price blocks should not be multiplied by the number of units as originally recommended, as this multiplication results in a gross undervaluation of the water. The Company has amended Exhibit B to make the appropriate numeric changes, as well as relabeling several of the table columns for clarity. The Company has not changed Exhibit B to reflect any other discussions about pricing, such as whether to charge base rate charges for irrigation meters. Amended Exhibit B also corrects several small typos corrected on the record during the hearing.

The Company feels that Amended Exhibit B is a more accurate representation of the Division's recommended rate structure, the Company's proposed billing methodology, and is the best information from which the Commission and the parties should operate. The Company appreciates the continued participation of the other parties and Division as we work towards an equitable pricing structure for Community Water customers.

Respectfully submitted this 14th day of September, 2016.
