

Anticipated Growth Showing Minimum and Overage Gallon Used –

Community Water does not anticipate additional growth. We understand our system is running at capacity and do not have the ability to add new customers. We are currently undergoing a water rights evaluation to ensure stability moving forward.

The total usage for 2016 was 39,612,136 gallons.

The total usage for 2015 was 40,747,589 gallons.

The total usage for 2014 was 45,619,250 gallons.

The total usage for 2013 was 41,278,144 gallons.
