Re: **Docket No. 21-001-01**, Bridgerland Water Company's Application for a Rate Review and Approval of a Conservation Rate Increase.

Recommendation (Approval)

The Utah Division of Public Utilities (Division or DPU) has reviewed this filing of a request for a rate increase by Bridgerland Water Company (Company or Bridgerland) and concludes that the filing is substantially complete according to Utah Administrative Rule R746-700-50.

Issue

On July 22, 2021, the Commission issued an Action Request for the Division to review and make recommendations concerning the application of Bridgerland's request for a rate increase. On July 27, 2021, the Commission issued a Supplemental Action Request requesting the Division provide a recommendation regarding whether the application constitutes a complete filing. Per Utah Code Section 54-7-12(2)(b)(ii), parties have 14 days after the day on which the application

is received by the Commission to challenge the completeness of an application. This memorandum represents the Division response to both of the Commission's Action Requests.

Discussion

Rule R746-700-50 lists the specific filing requirements for a general rate case application of a water corporation. The Division analyzed and compared the information in Bridgerland's application to the filing requirements and verified that it is substantially a complete filing.

Conclusion

The Division recommends the Commission consider Bridgerland Water Company's application for a rate increase complete.
