The response was interesting.

The Jepsen's owned a home in 2019 in Bridgerland A (1183 Lakeview Drive). The Jepsen's are not currently building, we have resided with a letter of occupancy from the Bridgerland HOA and Garden City (documentation can be obtained through the city office) in a home completed in 2020!!

I would imagine this is once again a mix up on behalf of a understaffed and poorly ran water company. Please check your records, verify whom, and in regards to what issues you are replying.

I would ask the committee to review again the responses of the Water Company addressed to the Jepsen's as they seem unaware of our lot or location within there own subdivision.
