Dear Public Service Commissioners,

I would like to submit a new cover letter for Docket No. 23-010-01. In haste, I sent a draft letter instead of the intended letter. I had no idea that this case would become so controversial, and I was not careful. As protests appeared and even as I prepared for the hearing, I read and studied many pages of information, but I never reread my original letter. Looking back, I can see that my original letter had potential for confusion. I ask that you consider this new cover letter which more clearly represents my purpose. (For ease of comparison, I have highlighted the changes)
