Dear Kirt &amp; Tammy Bovero

The water company serving your residence is filling with the Public Utilities Commission to be treated as a private water company instead of as a public water company. As a private water company the water is still subject to all the safety requirements and testing that we have previously been doing. However, administratively, there are fewer requirements and hearings which make it simpler and less expensive to manage.

As part of this process we are required to reach out to all the members of the company to let them know of this application. Please respond to this email letting us know that you have received this notice. If you have any questions please feel free to call my number below.

Thanks,

Steven Fenton
